SHORT TITLED BRIEF WITH INTERMITTENT
MOTIONS FOR DEFAULT JUDGEMENT AND TO
AMMEND AND REVISE NOTICE OF APPEAL
INCLUDING PROPOSITIONS FOR DISCUSSION
BY THE RECOGNISED PANEL

Comes now Lance Delon Alvarado In proper person and Co Appellant above
titled as requested by Lisa B. Fitzgerald, Appellate Commissioner whom requested an opening
brief due by the date of the 17th of June 2024.

That the Panel assigned to decide the merits of this appeal at Docket Entry Nos. 4
and 6 for whatever consideration(s) the Panel deems appropriate are hereby recognized by the Co
Appellant above named.

SHORT TITLED BRIEF WITH INTERMITTENT MOTIONS FOR DEFAULT JUDGEMENT AND TO
AMMEND AND REVISE NOTICE OF APPEAL INCLUDING PROPOSITIONS FOR DISCUSSION BY THE
RECOGNISED PANEL - 1

1 The Appellant(s) motion the Court and/or Panel for a default judgement under
2 FRCP RULE 55 default judgement. With monetary amounts far exceeding the complaint amount
3 filed and far exceeding the minimum amount for a US District Court Complaint filed.
4

5 Co Appellant Lance Delon Alvarado not knowing whom to serve after the
6 Appellee EDD notified Mr. Alvarado not to contact him by letter and the Appellee the CUIAB
7 are only a part of the judicial executive process.

8 Neither Appellees filed a California Superior court action following a 6 month
9 deadline to file. All of which are a matter of record within the CUIAB records and entries of
10 judgement in exhibits A and B filed within the Appellant's complaint December 29th 2023.
11

12 Mr. Alvarado not having the resources nor willing to RISK constantly making
13 copies and serving unknown Parties that are actually liable to the Appellant(s) for ALL their
14 losses and obvious damages!

15 Also the Appellant(s) pray for the following amendments to be revised and to be
16 added to the Notice of Appeal titled The Abrogation Proclamation as encompassed within the
17 Complaint filed December 29th 2023 as referenced utilizing the case and docket numbers above
18 to include the following case laws and federal rules of civil procedures as well as amendments of
19 the United States Constitution questions regarding the Supreme Law of the United States of
20 America for referencing and decision.
21

22 Considering just how long lawsuits take before completion and how hard the
23 Appellant(s) continue working on numerous projects in and away from the courtroom that do not
24 concern the Court other than the fact Lance Delon Alvarado is currently working, still studying
25 and practicing law while working on this case in hand. All while doing his best to comply with
26

27

RECOGNISED PANEL - 2

1 all the rules and regulations that pertain to this case, and all while still caring, cleaning, shopping,
2 running errands for his disabled mother whom has doctor appointments and medication pickups
3 on regular intervals. Mr. Alvarado's mother is actually paying out of her own pocket and her
4 own credit and bank accounts while this case is pending under threat of eviction for having Mr.
5 Alvarado a Nevada resident and is temporarily residing in her leased duplex unit while this case
6 is pending. Mr. Alvarado also continues to promote and market their newly founded family
7 owned small business. All Parties involved including the Court know all the hard work it takes
8 for new businesses to start generating money for a return on their investments.
9

10
11 Lance Delon Alvarado wants to be able to buy his mother some food, pay all their
12 bills and finally afford insurance following resolution of this complaint.

13 Mr. Alvarado is demanding a monetary settlement somewhere between the lower
14 hundreds of and upper higher tens of millions of dollars "**range**" for Mr. Alvarado's troubles,
15 "work", and for Mr. Alvarado's personal use. Including commissions and royalties.
16

17 Mr. Alvarado wants to look after his children and their children for generations to
18 come.

19 That all Court Costs and Attorney (proper person) fees levied and assessed against
20 all known and all Unknown and all unrecognized Appellees who continue to lie and deceive the
21 Appellant(s).
22

23 All Of which is more than fair considering all the actual facts that haunt Mr.
24 Alvarado's past incursions with Nevada's "**questionable**" County and township judicial Courts
25 and their continued lies and defamation of Mr. Alvarado's true character. As well as how much
26 professional athletes make under contract these days! Including the fact that Mr. ALVARADO
27

RECOGNISED PANEL - 3

1 IS NOT GREEDY LIKE INSURANCE CORPORATIONS AND IS NOT PLAYING
2 AROUND, AND WORKS TO EARN HIS KEEP.

3 If the recognized panel assigned to decide the merits of this appeal considers
4 those amounts unfair and wishes to award the Appellant Mr. Alvarado more money than
5 demanded than Mr. Alvarado will gladly accept a higher amount until Mr. Alvarado can get his
6 affairs in order.
7

8 If the United States Economy is on full life support the last thing a doctor would
9 do is suffocate and stop blood supply to the brain. Like COVID OBVIOUSLY DID!
10 IMMEDIATELY eliminating jobs and basically temporarily killed the economy. Thanks
11 Governor Gavin Newsom and State Governments (Diagnosis 101) First response render
12 assistance (PUA COMPLAINT FILED DECEMBER 29TH 2023 UNTIL THE REAL
13 PROFESSIONAL LAW DECIDERS AND MAKERS ARRIVE)
14

15 Luckily the Governor of California and its State Employees have immunity and
16 insurance coverage. Its unlucky for Insurance Corporations to allow State Employees and
17 departments to continue abusing those privileges. For money!
18

19 Because California's Governor is the person Mr. ALVARADO holds liable for
20 all of Lance Delon Alvarado's losses and damages after COVID. Losses that continue to
21 accumulate to this very day and into the future while this US District Court Complaint is
22 pending!! THE APPELLANT(S) combined damages are very extensive considering California
23 isn't the only State in the Union!

No. 28183

(Relevance: Inducement by way of a 2011 TPO granted and issued against Lance Delon

Alvarado the Appellant in this matter and in preclusion to Lance Delon Alvarado's

divorce proceedings that the Second Judicial District Court in and for the County of

Washoe allowed text messaging between the parties including pick up and drop off locations during visitation exchanges in direct conflict of interest as well as Nevada State Court subject matter jurisdiction by allowing City of Sparks Justice and Municipal Courts to prosecute excessively utilizing victims of domestic violence federal funding with no threat of violence ever occurring as well as allowing a fraudulent insurance policy to be written w/o Lance Delon Alvarado's consent and renewed an expired TPO a year after expiration thus defrauding the United States of America under color of law knowingly abusing discretion and causing damages Including but not limited to adversely impairing the Appellant's health. Both physically and emotionally and causing severe financial detriment through wrongful imprisonment on more than several occasions)

The Appellant is a man of his word and seeks an ad joiner of parties naming Liberty Mutual Insurance Corporation as a culpable Defendant/Appellees. APPELLANT now able to take legal action. Since nobody would legally represent or help Mr. Alvarado in the past

A BRIEF ASSESSED STATEMENT

Mr. Alvarado still being in forma pauper at this time due to his families medical and extrajudicial affairs and circumstances extremely limit Mr. Alvarado's ability to perform at this time.

That the negative financial adverse externalities that Mr. Alvarado is suffering while rendering care for his severely disabled mother along with the recent loss of his elder brother are extensive and costing Mr. Alvarado his time to continue studying law and seek suitable employment (time is money) Especially when the state of California neglects the fact that they themselves are supposed to be sending a licensed caregiver to render aid to Lance Delon Alvarado's mother who

1 has qualified and is supposed to currently have a caregiver. (another lie) Where is that allotted
2 money going? Not to Mr. Alvarado nor his mother.

3 Mr. Alvarado applied for PUA unemployment assistance and was found eligible In September
4 2022 by the Appellees.

5
6 Is California supposed to keep every penny the federal Government allocates for individual
7 United States tax payer's use? Insinuating that the United States of America are liars when The
8 United States of America already Paid for Pandemic Unemployment Assistance!

9 The Appellees then denied (lied to) Mr. Alvarado PUA unemployment unlawfully by not only
10 adding a Ca State statute (contract alteration after signature) to the Federal pandemic
11 qualifications in December 2022 but also placed the Appellant into the executive process a
12 second time while ignoring the fact and failing to recognize that they the Appellees had already
13 found Mr. Alvarado eligible for PUA benefits payable!

14
15 A blatant abuse of discretion and a violation of the CUIAB's own precedence and rules of the
16 executive process itself! How many California laws and Federal laws is California breaking for
17 The State of California's own contracted insurance corporation whom Mr. Alvarado does not
18 recognize and where all the federal PUA unemployment assistance is obviously being funneled
19 to? Logic being key that one of the Appellees is named California Unemployment
20 "INSURANCE" Appeals Board!

21
22 Whereas the Appellee the CUIAB had sent its own letter along with its findings of "fiction" that
23 once a matter has been decided that the matter can no longer be reversed unless a Superior Court
24 orders otherwise yet the CUIAB reversed their own decision another "fiction".

27
28 SHORT TITLED BRIEF WITH INTERMITTENT MOTIONS FOR DEFAULT JUDGEMENT AND TO
AMMEND AND REVISE NOTICE OF APPEAL INCLUDING PROPOSITIONS FOR DISCUSSION BY THE
RECOGNISED PANEL - 7

1 These facts are within the Appellant(s) exhibit lists within the complaint filed with the Court.

2 Marked exhibits A and B

3 These injustice have literally devastated Mr. Alvarado's immediate family both mentally and
4 financially since Mr. Alvarado first applied for pandemic aid relief back in June 2021 less than
5 30 days from becoming aware of the PUA unemployment assistance during an identity
6 verification appointment conducted within the IRS Federal building located in Reno Nevada late
7 July 2021 in order to collect Mr. Alvarado's own 2020 tax return.
8

9 The PUA Relief also promised a retro active back dating to March 2020.

10 California sent Mr. Alvarado's mother unemployment assistance without her even applying!
11 When Mr. Alvarado's mother notified California of this fact California was very quick to freeze
12 that account. Where did that unemployment assistance funding go?
13

14 Did California even give any federal PUA funding to any applicants at all?

15 Or did California require every PUA applicant to go to California State Superior Courts to
16 collect and burdening the Superior Courts of California. All of whom would be double and triple
17 dipping Federal PUA funding away from United States tax paying citizens!
18

19
20 A BRIEF RESPONSE:

21 The Appellant(s) wishing the Appellees a fair opportunity to respond, questions whether or not
22 any summons has been sent by the clerks of the US District Court under Rule 24b(2)c of the
23 Federal Rules of Civil Procedure?
24

25
26
27
28 SHORT TITLED BRIEF WITH INTERMITTENT MOTIONS FOR DEFAULT JUDGEMENT AND TO
AMMEND AND REVISE NOTICE OF APPEAL INCLUDING PROPOSITIONS FOR DISCUSSION BY THE
RECOGNISED PANEL - 8

1 That if the Appellees have not been served a summons then how does the US District Court or
2 even the US Circuit of Appeals Ninth District expect Mr. Alvarado to? Especially with
3 California service requirement costs?
4

5 Mr. Alvarado is approved for informa pauper status and obviously can't afford the continued
6 making of copies nor can he afford the costs associated with constant visits to and from the US
7 District Court for the Eastern District of California in Sacramento. Then explain how can Mr.
8 Alvarado be able to afford any type of service fees?

9 Whereas the APPELLANT(s) recognize that the Appellees above named are only a part of the
10 executive process and the actual whereabouts of Mr. Alvarado's allotted PUA funding are still
11 unknown to the Appellant(s)
12

13 As stated within the Complaint filed December 29th 2023. All Unknown Parties intra state!
14 Leaving the Appellant(s) confused as to whom to summon and as to where to address those
15 summons to?
16

17 How is Mr. Alvarado supposed to summons an entity that may have attempted to seize or
18 defraud the United States Government and Mr. Alvarado's PUA federally allotted funding by
19 way of stealing, evidence tampering fraud including Mr. Alvarado's identity by theft?

20 Another reason Mr. Alvarado had named the United States of America as a Co-Plaintiff within
21 the Complaint filed December 29th 2023.
22

23 Mr. Alvarado had made numerous attempts to seek out legal aid and help from private attorneys
24 to Pro bono entities against Mr. Alvarado's better judgment after his past experience within
25 lower state judicial Pro Se programs and processes including Nevada's Pro Se program named
26 Lawyer In The Library during his divorce.
27

28 SHORT TITLED BRIEF WITH INTERMITTENT MOTIONS FOR DEFAULT JUDGEMENT AND TO
AMMEND AND REVISE NOTICE OF APPEAL INCLUDING PROPOSITIONS FOR DISCUSSION BY THE
RECOGNISED PANEL - 9

1 All attempts made by Mr. Alvarado were as futile as his proper person's unrecognition while
2 litigating in the State Judicial jurisdictions

3 So much as to almost completely destroy Mr. Alvarado's own reputation beyond repair! Hence
4 his skepticism not only of Nevada's but the entire Executive and Corporate State Judicial
5 processes including the Appellee the CUIAB!

6
7 Which notably and as a matter of record state corporate agencies have obviously conspired
8 against Mr. Alvarado after refusing his request for a Bill of Exception and all the demurred
9 findings of the Appellee(s) whom broke their own rules of engagement within the hearings held
10 and the records from both forums submitted as exhibits A, B, and C within this Complaint ab
11 initio December 29th 2023.

12
13 Mr. Alvarado's personal experience knew he needed a competent legal team to combat State
14 Government's Insurance Corporate lies and their greed.

15 A legal team who's true interests are the same as Mr. Alvarado's interests.

16
17 A team that is competent and will get to the bottom of all these financial atrocities and fraudulent
18 injustices wreaking havoc upon Mr. Alvarado's person and his personal economy as well as the
19 United States Of America's economy that is in a major deficit crisis!

20 Mr. Alvarado could think of no better or wiser way but TO ENLIST THE BEST OF THE BEST
21 OF THE BEST LEGAL TEAM TO RENDER AND COME TO HIS AID!

22 (PROFESSIONALS ARRIVED)

23
24
25 **Mr. Alvarado's personal opinion is The United States of America's Legal Teams are the**
26 **best!**

27
28 SHORT TITLED BRIEF WITH INTERMITTENT MOTIONS FOR DEFAULT JUDGEMENT AND TO
AMMEND AND REVISE NOTICE OF APPEAL INCLUDING PROPOSITIONS FOR DISCUSSION BY THE
RECOGNISED PANEL - 10

1 **Or is that illegal or prejudice for Mr. Alvarado to say as well?**

2 By incorporating the United States of America within Mr. Alvarado's complaint as a
3 Co-Plaintiff Mr. Alvarado feels legally safe and secure! Yet Mr. Alvarado is still uncertain
4 regarding his own personal economic interests in doing so?
5

6 The United States of America whom is always on the hunt for heinous villains preying,
7 terrorizing, and conspiring against the United States.

8 Mr. Alvarado is **not** one of those villains whom utilize terrorism and fear tactics.

9 State Governments and State Corporate Insurance used the fear tactic that helped to cause the
10 worst economic financial crisis and disaster in the history of the United States of America THE
11 COVID PANDEMIC condoning state wide economic closures and got richer wealthier and more
12 powerful doing so. While all other industries suffered while the Appellant(s) are still suffering to
13 this day while working hard!
14

15 The United States Constitution provides every citizen the right in the pursuit of happiness that
16 includes the right to work and have jobs no matter what they do within their private lives!
17

18 State Government's Corporate Insurance tampering and invasion has weakened the Appellant(s)
19 economy!

20 Even more so it has completely destroyed Mr. Alvarado's personal economy.

21 State Government's Insurance Corporations continue tampering and bullying taxpaying citizens
22 by undue influence upon corporate America by limiting corporations ability to hire gifted and
23 talented individuals whom only need a chance to prove their worth and are forced to depend on
24 and utilize federal funding through welfare, social services like Medicaid and Medicare. Instead
25 of working. A practice condoned by California and insurance corporations!
26

27
28 SHORT TITLED BRIEF WITH INTERMITTENT MOTIONS FOR DEFAULT JUDGEMENT AND TO

RECOGNISED PANEL - 11

1 Corporations and businesses have a hiring process of their own and can determine on their own
2 whom they choose to give that chance to without laws in place that limit that opportunity.

3 The Appellant(s) would argue that requiring pre employment and random drug testing violates
4 the workers 5th amendment right of self incrimination.
5

6 Every citizen has the right to work in whatever industry they wish and that industry can
7 determine on its own whether or not the worker is a liability risk or an asset during performance!

8 State Government's Insurance Corporate law actually causes nation wide economic crisis! By
9 limiting and/or cancelling job opportunities to millions of American workers nationwide. AND
10 COSTING THE UNITED STATES FEDERAL GOVERNMENT BILLIONS OF DOLLARS
11 EVERY YEAR NOT ONLY IN THE PRIVATE SECTOR BUT IN THE PUBLIC SECTOR AS
12 WELL! By adding more and more dependents on federal funding programs instead of decreasing
13

14 applicants

15 Accidents happen. That is why "accidents" are not defined as "on purpose"

16 State Government's Corporate insurance continue to" PUPOSLEY" cause State Governments
17 nationwide to fear its own working and lower class citizens by singling out and targeting citizens
18 as liabilities while only enriching State Governments and corporate insurance economies.
19

20 Both of whom are ignoring the public and private sectors cries for changes and criminalizing
21 those private citizens for speaking out and trying to be civil about it!
22

23 Yes State Governments and their insurance corporate LIES AND GREED should be afraid for
24 purposely and negligently causing public outrage and disorder by sheer plain ignorant negligence

25 when State Governments have insurance to cover the costs including unemployment that State

26 Governments and corporate insurance purposely cause their citizens to suffer!
27

28 SHORT TITLED BRIEF WITH INTERMITTENT MOTIONS FOR DEFAULT JUDGEMENT AND TO

1
2 All other industries and business nationwide suffered except State Government business and
3 corporate insurance in the wake of the pandemic known as COVID.
4

5 State Governments and insurance Corporations carry and go on like nothing ever happened with
6 the attitude of business as usual! Now wealthier and more powerful than ever after the biggest
7 heist in the history of the United States of America!

8 Why?? One would ask?

9 Because the Pandemic known as COVID only enriched and empowered Corporate States and
10 Corporate Insurance whom are mostly salaried positions. States Contracted to invest State 401k
11 and Retirement investments and even more covers their employees homes, autos and health
12 coverages under an umbrella while receiving favors in the form of discounted policy premiums!
13

14 While not properly dispersing Federal Pandemic funding.

15 Neglecting the fact that citizens working in small businesses and in the private sector including
16 part time workers don't have the same salary options or great benefits as those giant corporations
17 and State employees who are over staffed and over paid and wealthier off of federal allotted
18 funding that was meant for tax paying citizens not State Employees to cash out whenever they
19 feel like buying assets or taking vacations!
20

21 Over paid and tenured teachers are just as guilty and who should be teaching curriculum and not
22 indoctrinating those they teach. While psychiatrists and social workers disguised as counselors
23 continue confusing children regarding gender. While trying to justify their own childless
24 behavior and actions to parents and the entire Country as a biologically natural feeling that it is
25 to question ones gender? When it is biologically impossible (Science Biology 101 FAIL). It is
26

1 not needed curriculum. It is a mental conditioning tactic. (titled: Physiological warfare ideology
2 indoctrination 101 FAIL and state sponsored utilizing federal funding!

3 States are failing miserably and causing chaos and disorder! A weak foundation for a future
4 “Nazi fascistic ground forming political platform. Or the possible formation of a future new
5 political party platform to run on.
6

7 Most likely devised and concocted by a group of under age elite class children waiting to prey on
8 a weak America that is too weak to defend themselves.

9 Any new Political party running on this platform would indeed gain quick and immediate public
10 support and easily be able to enslave or worse even eradicate an entire generation of children
11 who were lied to by State public school counselors and district school boards who purposely
12 continue confusing children regarding what gender they actually are!.

13 Schools are weakening and embarrassing the United States of America on the front lines. While
14 America’s friends and enemies world wide laugh and make fun of the USA.
15

16 Purposely confusing children in a learning institution setting should be ILLEGAL IN ITSELF!

17 IF YOU WERE TO ASK LANCE DELON ALVARADO FOR HIS OPINION ON THAT
18 SUBJECT MATTER! FOR MENTALLY ABUSING CHILDREN!
19

20 These mentally challenged minority and insane state sponsored and paid professional therapists
21 who were most likely bullied because of their own preferred and own individual hidden sexual
22 fantasies and desires as children are actually endangering children!

23 Therapists and social workers who don’t have any children are only going to be victims of their
24 own delusion and future demise and are liabilities and are costing States nationwide with legal
25 complaints being filed against State Governments all across social media!
26

1 TEACHING STARTS AND NEVER ENDS AT CHILDREN'S HOMES AND IS ONLY
2 "BRIEFLY" IN SCHOOLS! AND IS A "BRIEF" PART OF EVERYBODIES LIVES!

3 PARENTS ARE NOT THEIR CHILDRENS ENEMIES!!

4 Children hide behind those above the age of majority because they are children growing into
5 adulthood!

6
7 A simple solution is to stop appeasing and legally protecting State Government employees and
8 state sponsored paid Educators and their Board members by letting them hide and utilize civil
9 immunity and tenure.

10 The State Government employees are a minority. A minority who keep trying to teach fiction as
11 fact and justifying abuse of their immunity status by arresting anybody who speaks out against
12 their abusive and insane actions verbally!

13
14 Revoking immunity and tenure now would be a lot cheaper than trying to justify Educators
15 psychological insanity and than have them forcibly removed later

16 That would publicly humiliate State employees and lead to civil lawsuits.

17 When it is standard operating procedure to fire employees in the private sector for poor job
18 performance for risking and endangering lives due to liability!

19 State Sponsored Corporate Insurance fascism!

20 Just ask Adolf Hitler his opinion on removing threats to Germany. The fascist way!

21 Stop detain and arrest!

22 Oh you can't because Hitler was removed from power following Nazism's rise and abrupt
23 collapse.

1 Anybody can and should ask the Jewish communities for their personal opinion on that subject
2 matter.

3 One would learn a thing or two about fascism.

4 Fascism still exists today through

5 State Government Employees whom are supposed to be public servants!

6 Public servants are not serving the public's best interest when public servants are considered
7 corporate employees and trying to lead their states where the majority of the citizens don't want
8 to go at all!

9 Corporations are out to do one thing and one thing only. To make profits for the corporation!
10 State Governments and their state wide departments should not be allowed to have all the above
11 stated comments all those ways at the same time and consider that FAIR, JUST AND

12 IMPARTIAL?.

13 Having it all those ways at the same time including IMMUNITY is plain and simple common
14 sense

15 JUST UNFAIR

16 STATEWIDE CORPORATE INSURANCE FASCISM MUST END!!!

17 If a citizen doesn't work for the state, does not have insurance, is not
18 controlled by welfare or social services that drain federal funding that is
19 handed to the states then...

20 Hunt those citizens down, detain then criminalize and imprison them!

1 It's just State policy!

2 The United States of America's tax payers are tired of paying for

3 Statewide Fascist policies!

4
5
6 **State Government's Corporate Insurance Fascist Intrusion** into the
7
8 personal private sector has empowered State Judicial jurisdiction in a
9 way that States believe they can ignore the Supreme law of this Land the

10 United States of America's Constitutional LAW! INFRINGING ON
11
12 THE 1st, 2nd, and 5th Amendments just to name a few! While filing false
13
14 police reports and false victims of domestic violence reports and making
15
16 criminals out of United States of American tax payers for protecting
17
18 their rights to speak, work and to live in peace!!

19 States have infringed upon The peoples right to enjoy their religious
20 freedoms of assembly and has damaged churches when the people could
21
22 not attend and PAY their homage or offering(s)

23 How are good people supposed to pay anything when they are forbidden
24
25 to leave their homes or attend church or even to work to pay their taxes!

26 All of theses elements are still effecting Mr. Alvarado! Who has asked

1 the Court to pay both his 10% TITHING donation and his United States
2
3 taxes! Because he cannot while this case is pending!!

4 How long is the United States of America's Supreme Court going to
5
6 ignore the United States citizens constitutional rights? By dishonoring
7
8 the United States WW2 soldiers who gave their lives and won the fight
9
10 against fascism by now ignoring corporate state sponsored insurance
11
12 fascism now exposed for what it really is?
13

14 Or are the Supreme Court Justices going to wait too long and get
15
16 removed by force themselves due to negligence in a future civil war in
17
18 America?

19 Simple facts of history: Governments get overthrown by the people that
20
21 they enslave than ignore!!!! (French revolution, the Czars of Russia,
22
23 crazy King Ludwig of Bavaria all written and documented facts of world
24
25 and American History. History that was taught to Mr. Alvarado when he
26
27 went to school. As well as to the Supreme Court Justices when they
28

1 were attending their schools growing up. Or did their curriculum teach
2
3 them something different?

4 England was removed by the United States of America with extreme

18 trained for a possible foreign military attack! I do not see a California
19
20 Air force or a California Navy or Coast Guard? Nor a Marine Corp!
21
22 California only has a small police army that only attacks United States
23
24 Citizens for money! And a pathetic pilotless drone force patrolling
25
26 American cities from above! Does California think that they can just
27
28 take Federal funds and walk away? Secede from the Union? Then The
rest of our country will just pay and come to their aid after doing so?

1 Which of course the United States would be forced to do to keep the
2
3 rest of our Country safe!!

4 The State of California has obviously not strategically thought things
5
6 through for long term sustainability or to be able to do anything but
7
8 invest in insurance policies for their own wealth and not the common
9 wealth or safety of their entire population! Only California corporatism's
10
11 common wealth.

12 I Guarantee that if a foreign military invaded and took control of
13
14 California that California's State Employees would be in a State of
15
16 Emergency and would be immediately terminated and would be
17
18 extremely lucky that California's Government employees wouldn't be
19
20 exterminated in that process of elimination!

21 PETITON PROPOSALS FOR US ECONOMIC RECOVERY FOLLOWING THE PANDEMIC

28 SHORT TITLED BRIEF WITH INTERMITTENT MOTIONS FOR DEFAULT JUDGEMENT AND TO
AMMEND AND REVISE NOTICE OF APPEAL INCLUDING PROPOSITIONS FOR DISCUSSION BY THE
RECOGNISED PANEL - 20

1 1. The Appellant(s) petition the Court to mediate for State Reform and/or Revoke State
2 Corporate Status so as to not conflict with private sector interests and start protecting all
3 citizens and not just state employees who continue to abuse their immunity privileges!
4 State Government departments are supposed to be public servants. Not corporate
5 employees out to make insane profits especially after a nationwide pandemic crisis!
6 Or repeal the immunity State Corporate employees share and frighten them with civil
7 liability lawsuits and hold them civilly and criminally accountable for their corporate
8 fascist injustices and greed running ramped on the streets of America! Police officers
9 filing false police reports (A Crime In Itself) and District Attorneys and PUBLIC
10 PRETENDERS CONSPIRING AND INTENTIONALLY CREATING LEGAL
11 FICTIONS and terrifying the citizens with the threat of maximum prosecution or plea for
12 the sole purpose of insurance liability due to police officer negligent lies filing trumped
13 up charges just to make the police department and the courts money while ensuring
14 insurance liability profits by covering for each other!
15 Passing those costs on to the federal funding and is a continuous non stop funneled drain
16 criminalizing tax paying citizens for what? Money and state employees whom are the
17 liability!! A citizen can't sue if they are forced into a legal fiction plea or are in prison!
18 The civilian population's unrest is only getting worse as witnessed all across social
19 media all over the news media and the public streets of America!
20 Something must be done before it is too late!
21 Let those persons in State Government abusing their immunity now be sued financially.
22 (Preventative maintenance before civil war breaks out)

1 I am positive it wouldn't take long at all for rapid change to happen and is easily
2 justiciable and a practical tactic in maintaining order rather than allowing state
3 Employees to get away with fascist absolutism! (**Absolute power corrupts absolutely**)
4 It would also protect State Governments as well as save state corporate insurance interest
5 under contract.
6

7 (Corporate Economic Downsizing due to risk 101)

8 The economics of Individual State's Judicial economy and employee credibility must be
9 re examined for failing to protect State citizens from corporate injustices that endanger
10 everybody!
11

12 How can the United States of America expect citizens to be fiscally responsible and save
13 for their retirements if citizens are forced to finance their own personal costs of living?

14 The most basic law of economics is to save money and don't overspend.

15 Government overspending??? Must I say any more other than politicians obviously
16 failed their basic economics business class.)
17

- 19 2. The Appellant(s) Petition to Federally Legalize Marijuana with regulations and
20 enforcement through the ATF or a newly founded Federal regulating committee.
21 Marijuana has proven to be an industry that should be legalized and Federally taxed and
22 monitored throughout the United States. Money that should be allowed to be deposited
23 back into the federal banking system. Taking away illegal logistical opportunity and
24 tactics that launder money through property and asset purchases that cause instability
25 within the housing and other markets via State sponsored Drug Cartels that produced \$5.1
26

1 billion in taxable 2023 Income to the state of California alone and another \$2 billion in
2 revenue to Nevada while creating 18,800 new jobs in Nevada. Jobs whom are currently
3 not working and paying federal taxes which should be their best interest first and
4 foremost

5
6 Marijuana hallucinogen may be a positive economic solution however a stimulant based
7 drug would reduce liability as well as provide energy to workers.

8 The depressant drug named Alcohol which is by far more dangerous to the consumer or
9 user than the above stated drugs combined had been previously ruled illegal then repealed
10 in the past and did more than just one or two things. It made citizens criminals and caused
11 wide spread organized crime. Main cause Government negligence appeasing special
12 interest groups. Lesson: citizens will always find ways to escape the realities of suffrage
13 and Government(s) intrusions into their individual and independent personal lives.

14
15 (cause and effect Physics 101)

16
17
18 There has to be a way for everybody's vested interests to rise while the national deficit falls!

19 State Governments have to cut spending not job opportunities and continue over taxing!

20 State Government fascist insurance corporations have caused Federal Economic short fall.

5 4. The Appellant(s) hereby petition for possible consideration of a 51st State? Hawaii has
6 proven itself since 1959? Perhaps the Panel will consider a funded expedition to a
7 territory of its choosing? Positive economic expansion. Mr. Alvarado would volunteer to
8 lead that expedition but is not willing to abandon his duty and post as a care giver for his
9 disabled mother at this time.

- 1 5. The United States of America should consider reinstatement of the Pledge of Allegiance
2 to the Flag of the United States of America in public schools immediately. Along with

8 6. Judges and military officials might consider working side by side to develop, incorporate
9 and deploy a military enlistment program during pre sentencing and/or during Intake of
10 prisoners known as the fish tank. Where evaluation of individual inmates takes place. If
11 the individual qualifies after a taste of what real prison life entails. That individual or
12 inmate is given an option to study and pass the GED if they haven't graduated high
13 school and an opportunity of enlisting In the armed forces of the United States of
14 America for the remainder of their sentenced time or stay in prison. Most gang members
15 entered gang life wanting to be apart of something and to feel safe in their neighborhoods
16 growing up. If these kids would give their lives to the gang. Maybe they would be willing
17 to work hard and give their devotion to a greater cause and a bigger gang the United
18 States of America. Our country who would be giving them a second chance to prove their
19 worth. If the inmate takes the don't ask don't tell policy type approach and earns his
20 commission not only does our country benefit from that success but so does the
21 rehabilitation of inmates success rating. If the inmate does not assimilate or acclimate
22 into the division assigned, then the inmate will be deployed back into prison. While the
23 United States of America's streets remain and become safer for all as well. It would mean
