Subject: would you give me a call please
Importance: High

I want to know if I can talk to Public Sector Banking about what notification, if any, the bank gives to EDD when we determine a UI claim is fraudulent. That notification from us to EDD seems to me to be a necessary event to trigger EDD to give notice and right to a hearing because there is a governmental taking. Without it, EDD is denying due process rights.

Relevance to me is I am getting questions from Capitol staff that go to issues underlying takings.
