

Judge Greer,

Would you please look into my case?
I'm not sure the case #. I HAVE never been
in any kind of trouble. I have been
trying to figure out, reflect and go back
in my mind how this entire situation
occured. I have not gotten copies of
an ~~SCORPE~~ Indictment, or Charges.

I Have to have copies, Hightlight &
mark up Any documents to be Able to
fully comprehend. Along with having Access
to whatever Accused Laws was broken or if
an error was made.

I signed A "Blind Plea" not Knowing any
thing About it, it included 325000 Approx in
Restitution. 2 Loans that we received in two
seperate Corporations were used As per the
SBA Guidelines & Forgiven After CDC Loans
Submitted All required info from us to do so,
A third loan was obtained for Another corporation
that the money was not used in the time period
for CDC Loans to submit A request for forgiveness.
CDC Loans "charged off" the loan as bad debt
expense and told me that it was our money.
~~that due to~~ my BANK (Regions Bank) Accusation
of an intentional Criminal Act and contacted
Secrete Service for investigation. They froze ~~all~~ accounts
on 8-14-2020.

Including my special needs daughter's donations Account after she had been At the Shriners Childrens Hospital undergoing 2-18-2019 HALO Traction therapy where 8 pins were drilled into her skull for 6 week to follow up with 2 growing rods placed into her back on 4-1-2020.

I would Ask your honor to dismiss my case completely out of criminal court & ~~return~~ put an order in to return the money that was seized by the secret service. ~~IF~~ IF I understand Correctly with the research I've done this for. A CASE with Restitution CANNOT TAKE Place if their isn't A Victim. The Victim in this CASE is My family & I your honor from An Accusation from An "Employee At my own BANK that thinks/thought they know the rules of Accountig. We have lost everything in every company, & I became homeless for a period of 6 months or so, I would like to get back at what I've known & doe most of my professional career. CDC Loans charged off the Loan for the Kingdom of God, Inc. It was never Applied by CDC Loans for Reimbursement by the SBA. Making it a private loan & not tax payer or public funding was ~~not~~ involved.

When I Inquired About it they ^(SBA) shared
with me that I could Apply for the EIDL
Loans up to 7million per company @ 3% .
As A result of this entire ordeal
and per Agent Shirlly from Secrete service
he Advised that I Should not Apply for
that funding, Making us miss out on the
cheapest money ever offered in my career
for working Capital for business by Any entity

I have A MAJOR Civil CASE or
~~negotiation~~ negotiation to make with my
own BANK (Regions) from their negligent
or Arrogant employee that made the
decision in Accusing us Criminally.

Your Attention to this Matter would
be greatly Appreciated.

Sincerely

Chad Thomas
