Dear honorable judge Rodney Smith,

I am writing to you to regards to my mother Cindi Denton I have known Cindi my whole life 40 years growing up I remember my mother always being a hard worker and was always willing to help whenever she could. My mother was always a loving mother even when I wasn't very easy to love. My mom demonstrated and set examples by being a woman of strength love and always doing the right thing. My mother lost her mom in November of 1995 my mother took care of my grandmother with such great care love and compassion that was great pain for my mother and then followed by her husband of almost 30 years. My mother is not only my mother but she is the grandmother to my to my special needs daughter. She is my best friend. She home schools my 13 year old daughter who has special needs and takes her to her therapy and all her appointments. My mother is my everything she is my inspiration her love is unconditional and her heart is like no other she has loved me through my ups and downs and she has been with me with all my struggles. I've seen my mom go out of her way for so many people and touch so many lives. My mom's health isn't the best and I worry about losing her. She is all that we have. I thank you for your time, understanding and allowing me to write this letter.

Respectfully,

Salyna Smith
