I didn't get a chance to tell you, swimming up to the boat after second dive I was watching the props. Port side is engaging and releasing, engaging and releasing. Starboard side was still.

Port side was the one with the short. Shouldn't do it now

It wouldn't be shorting in neutral

Picking you up for dive 2 the port side was off.

It was engaging

Rachelle and kaz might come Tuesday. I'll look again then

Ok

It could have been if the short was trying to supply it power. I will let john know tomorrow and see what he says.
