ORDER

Upon the parties' request, I held a telephone conference on Wednesday April 27, 2022, to discuss discovery issues in this case. During the conference call, Plaintiffs argued that they are entitled to jurisdictional discovery. Defendants had not yet filed their motion to dismiss the Amended Complaint, but stated that they would likely do so by the April 29, 2022 deadline. I advised that I would review the motion to dismiss after it was filed, and enter an Order addressing the issue.

Defendants filed their Motion to Dismiss (Doc. No. 44) before the deadline. Based on the arguments made during the call, and after reviewing the motion, I am not persuaded that jurisdictional discovery is warranted at this time. However, Plaintiffs can make additional arguments for jurisdictional discovery in their response to Defendants' motion to dismiss, which I will consider.

IT IS SO ORDERED this 3rd day of May, 2022.
