Statement of Account
For ES1 LLC

Disclosure Information

- The interest charge on the Checking Line of Credit advances begins to accrue on the date an advance is posted to your account and continues to accrue daily on the unpaid principal balance.
- We calculate the interest charge on your account by applying the daily periodic rate to the "daily balance" of your account for each day in the billing cycle. To get the "daily balance" we take the beginning balance of your account each day, add any new advances or fees, and subtract any payments, credits, or unpaid interest charges.
- You may also determine the amount of interest charges by multiplying the "Balance Subject to Interest Rate" by the number of days in the billing cycle and the daily periodic rate. The "Balance Subject to Interest Rate" disclosed in the Interest Charge Calculation table is the "average daily balance." To calculate the "average daily balance" add up all the "daily balances" for the billing cycle and divide the total by the number of days in the billing cycle.
- If there are two or more daily periodic rates imposed during the billing cycle, you may determine the amount of interest charges by multiplying each of the "Balances Subject to Interest Rate" by the number of days the applicable rate was in effect and multiplying each of the results by the applicable daily periodic rate and adding the results together.

What to Do if You Think You Find a Mistake on Your Statement

Errors Related to a Checking Line of Credit Advance

If you think there is an error on your statement, write to us at:

Navy Federal Credit Union, PO Box 3000, Merrifield, VA 22119-3000; or by fax, 1-703-206-4244.

You may call us, but if you do, we are not required to investigate any potential error, and you may have to pay the amount in question.

Statement of Account
For ES1 LLC

Disclosure Information

- The interest charge on the Checking Line of Credit advances begins to accrue on the date an advance is posted to your account and continues to accrue daily on the unpaid principal balance.
- We calculate the interest charge on your account by applying the daily periodic rate to the "daily balance" of your account for each day in the billing cycle. To get the "daily balance" we take the beginning balance of your account each day, add any new advances or fees, and subtract any payments, credits, or unpaid interest charges.
- You may also determine the amount of interest charges by multiplying the "Balance Subject to Interest Rate" by the number of days in the billing cycle and the daily periodic rate. The "Balance Subject to Interest Rate" disclosed in the Interest Charge Calculation table is the "average daily balance." To calculate the "average daily balance" add up all the "daily balances" for the billing cycle and divide the total by the number of days in the billing cycle.
- If there are two or more daily periodic rates imposed during the billing cycle, you may determine the amount of interest charges by multiplying each of the "Balances Subject to Interest Rate" by the number of days the applicable rate was in effect and multiplying each of the results by the applicable daily periodic rate and adding the results together.

What to Do if You Think You Find a Mistake on Your Statement

Errors Related to a Checking Line of Credit Advance

If you think there is an error on your statement, write to us at:

Navy Federal Credit Union, PO Box 3000, Merrifield, VA 22119-3000; or by fax, 1-703-206-4244.

You may also contact us on the Web: navyfederal.org.

- **Account information:** Your name and account number.
 - **Dollar amount:** The dollar amount of the suspected error.
 - **Description of problem:** If you think there is an error on your bill, describe what you believe is wrong and why you believe it is a mistake. You must contact us within 60 days after the error appeared on your statement. You must notify us of any potential errors in writing (or electronically). You may call us, but if you do, we are not required to investigate any potential error, and you may have to pay the amount in question.
- While we investigate whether or not there has been an error, the following are true:
- We cannot try to collect the amount in question or report you as delinquent on that amount.
 - The charge in question may remain on your statement, and we may continue to charge you interest on that amount. But, if we determine that we made a mistake, you will not have to pay the amount in question or any interest or other fees related to that amount.
 - While you do not have to pay the amount in question, you are responsible for the remainder of your balance.
 - We can apply any unpaid amount against your credit limit.

- Tell us your name and account number (if any).
- Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe it is an error or why you need more information.

Disclosure Information

- The interest charge on the Checking Line of Credit advances begins to accrue on the date an advance is posted to your account and continues to accrue daily on the unpaid principal balance.
- We calculate the interest charge on your account by applying the daily periodic rate to the "daily balance" of your account for each day in the billing cycle. To get the "daily balance" we take the beginning balance of your account each day, add any new advances or fees, and subtract any payments, credits, or unpaid interest charges.
- You may also determine the amount of interest charges by multiplying the "Balance Subject to Interest Rate" by the number of days in the billing cycle and the daily periodic rate. The "Balance Subject to Interest Rate" disclosed in the Interest Charge Calculation table is the "average daily balance." To calculate the "average daily balance" add up all the "daily balances" for the billing cycle and divide the total by the number of days in the billing cycle.
- If there are two or more daily periodic rates imposed during the billing cycle, you may determine the amount of interest charges by multiplying each of the "Balances Subject to Interest Rate" by the number of days the applicable rate was in effect and multiplying each of the results by the applicable daily periodic rate and adding the results together.

Disclosure Information

- The interest charge on the Checking Line of Credit advances begins to accrue on the date an advance is posted to your account and continues to accrue daily on the unpaid principal balance.
- We calculate the interest charge on your account by applying the daily periodic rate to the "daily balance" of your account for each day in the billing cycle. To get the "daily balance" we take the beginning balance of your account each day, add any new advances or fees, and subtract any payments, credits, or unpaid interest charges.
- You may also determine the amount of interest charges by multiplying the "Balance Subject to Interest Rate" by the number of days in the billing cycle and the daily periodic rate. The "Balance Subject to Interest Rate" disclosed in the Interest Charge Calculation table is the "average daily balance." To calculate the "average daily balance" add up all the "daily balances" for the billing cycle and divide the total by the number of days in the billing cycle.
- If there are two or more daily periodic rates imposed during the billing cycle, you may determine the amount of interest charges by multiplying each of the "Balances Subject to Interest Rate" by the number of days the applicable rate was in effect and multiplying each of the results by the applicable daily periodic rate and adding the results together.

- The interest charge on the Checking Line of Credit advances begins to accrue on the date an advance is posted to your account and continues to accrue daily on the unpaid principal balance.
- We calculate the interest charge on your account by applying the daily periodic rate to the "daily balance" of your account for each day in the billing cycle. To get the "daily balance" we take the beginning balance of your account each day, add any new advances or fees, and subtract any payments, credits, or unpaid interest charges.

Disclosure Information

- The interest charge on the Checking Line of Credit advances begins to accrue on the date an advance is posted to your account and continues to accrue daily on the unpaid principal balance.
- We calculate the interest charge on your account by applying the daily periodic rate to the "daily balance" of your account for each day in the billing cycle. To get the "daily balance" we take the beginning balance of your account each day, add any new advances or fees, and subtract any payments, credits, or unpaid interest charges.
- You may also determine the amount of interest charges by multiplying the "Balance Subject to Interest Rate" by the number of days in the billing cycle and the daily periodic rate. The "Balance Subject to Interest Rate" disclosed in the Interest Charge Calculation table is the "average daily balance." To calculate the "average daily balance" add up all the "daily balances" for the billing cycle and divide the total by the number of days in the billing cycle.
- If there are two or more daily periodic rates imposed during the billing cycle, you may determine the amount of interest charges by multiplying each of the "Balances Subject to Interest Rate" by the number of days the applicable rate was in effect and multiplying each of the results by the applicable daily periodic rate and adding the results together.

You must contact us within 60 days after the error appeared on your statement.

You must notify us of any potential errors *in writing*. You may call us, but if you do we are not required to investigate any potential errors and you may have to pay the amount in question.

While we investigate whether or not there has been an error, the following are true:

- We cannot try to collect the amount in question, or report you as delinquent on that amount.
- The charge in question may remain on your statement, and we may continue to charge you interest on that amount. But, if we determine that we made a mistake, you will not have to pay the amount in question or any interest or other fees related to that amount.
- While you do not have to pay the amount in question, you are responsible for the remainder of your balance.

Reserve Line Balance Computation Method: To determine your **Balance Subject to Interest Rate**, use the dates and balances provided in the Reserve Line Balance Summary section. The date next to the first Balance Subject to Interest is day one for that balance and is applicable up to (but not including) the date of the next balance (if there is one). We multiply the Balance Subject to Interest by the number of days it is applicable and add them up to get the same number of days in the billing cycle. We then divide the result by the number of billing days in the cycle. This is your **Balance Subject to Interest Rate**. Any unpaid interest charges and unpaid fees are not included in the Balance Subject to Interest. The *****INTEREST CHARGE***** begins from the date of each advance.

REPORTS TO AND FROM CREDIT BUREAUS FOR RESERVE LINES

We may report information about your account to credit bureaus. Late payments, missed payments or other defaults on your account may be reflected in your credit report.

CONSUMER BILLING RIGHTS SUMMARY REGARDING YOUR RESERVE LINE**What To Do If You Think You Find A Mistake on Your Statement**

If you think there is an error on your statement, write to us at:

U.S. Bank, P.O. Box 3528, Oshkosh, WI 54903-3528.

You must notify us of any potential errors *in writing*. You may call us, but if you do we are not required to investigate any potential errors and you may have to pay the amount in question.

While we investigate whether or not there has been an error, the following are true:

- We cannot try to collect the amount in question, or report you as delinquent on that amount.
- The charge in question may remain on your statement, and we may continue to charge you interest on that amount. But, if we determine that we made a mistake, you will not have to pay the amount in question or any interest or other fees related to that amount.
- While you do not have to pay the amount in question, you are responsible for the remainder of your balance.

The date next to the first Balance Subject to Interest is day one for that balance and is applicable up to (but not including) the date of the next balance (if there is one). We multiply the Balance Subject to Interest by the number of days it is applicable and add them up to get the same number of days in the billing cycle. We then divide the result by the number of billing days in the cycle. This is your **Balance Subject to Interest Rate**. Any unpaid interest charges and unpaid fees are not included in the Balance Subject to Interest. The *****INTEREST CHARGE***** begins from the date of each advance.

How To Determine the Finance Charge:

The Finance Charge is determined by multiplying your unpaid balance at the close of each day in the billing cycle being accounted for by the applicable Daily Periodic Rate, after payments, credits and unpaid Finance or Late Charges have been subtracted and new advances, insurance premiums or other charges have been added to your unpaid balance. These daily Finance Charges are then added together and the sum is the amount of the Finance Charge owed. Your loan payments and the Credit Union's loan advances are entered when made. Your loan balance does not include Finance Charges.

How To Determine the Finance Charge:

The Finance Charge is determined by multiplying your unpaid balance at the close of each day in the billing cycle being accounted for by the applicable Daily Periodic Rate, after payments, credits and unpaid Finance or Late Charges have been subtracted and new advances, insurance premiums or other charges have been added to your unpaid balance. These daily Finance Charges are then added together and the sum is the amount of the Finance Charge owed. Your loan payments and the Credit Union's loan advances are entered when made. Your loan balance does not include Finance Charges.
