United States District Court
Middle District of Florida

US
v.
Amber Brucy

Case #: 2:21-Cr-74-TPB-

Motion for order to set payments
while incarcerated.

The petitioner, Amber Brucy, filing pro se, respectfully requests this Honorable court to issue an order to set her restitution payment to \$25 per month for the remainder of her period of incarceration.

Pursuant to 18 USC 3572, the District Court must specify the manner and the schedule in which restitution is to be repaid, in consideration of the defendant's current financial condition.

The petitioner asks that in considering the request of setting her monthly payment at \$25, the District Court consider her current income while incarcerated. US v. Dawkins, 202 F. 3d 711, 4th Cir, 2000.

The petitioner is currently incarcerated at Alderson Federal Prison camp, which is not a unicolor facility. She works as a teacher's aide for \$0.29 per hour earning an average of \$45-50 per month which must cover restitution, hygiene items and email minutes to communicate with her children and family.

With this limited income during her incarceration, any restitution payment over \$25 per month will

cause an even bigger financial burden and hardship, not just to the petitioner, but also to her family who is not responsible for her debt.

At sentencing it was stated that repayment while incarcerated would be \$25 per quarter unless she worked a unicon job and then it would be 50% of her earnings. Petitioner can not work in a unicon position because its not available at her institution, but based on her pay of \$45-50 per month, she can pay more than \$25 per quarter and therefore asks this Honorable court to order the BOP to set her payments at \$25 per month for the remainder of her incarceration.
