Case No. 2:22-CR-00087-KJM
DEPUTY CLERK

Ames

United States of America

Plaintiff,

v.

Aaron Ashcraft

Defendant.

DEFENDANT'S MEMORANDUM IN SUPPORT OF MOTION FOR COMPASSIONATE RELEASE

Now comes Defendant, Aaron Ashcraft, proceeding pro se, Defendant's Memorandum in Support of Motion for Compassionate Release.

ISSUE FOR THE COURT'S CONSIDERATION

The Defendant submitted a Motion for Compassionate Release in late 2023 that was subsequently opposed by the Plaintiff. The Defendant then filed a Rebuttal to the Plaintiff's Opposition. At the time of the Rebuttal, the Defendant was unaware of additional details that could effect the Court's decision regarding the Defendant's request.

Although the Defendant was aware of psychiatric issues with his wife, the specific details and documented evidence was not available to the Defendant until recently.

In January 2024, the Defendant's wife (Rhonda Morton) was diagnosed with Schizoaffective Bipolar Disorder. The Defendant has attached documents to confirm this diagnosis which certifies (by the State of California) Rhonda Morton as "Gravely Disabled" and unable to care for herself.

The Defendant has attempted to reach out to his son (Dhameon Ashcraft) in Sacramento, California recently. The Defendant's son's phone is disconnected and mail sent to him has been returned. It is the Defendant's belief that his son is now homeless.

The Defendant's mother (Alicia Walker) is currently in Michigan caring for her mother and unable to provide any kind of support for Dhameon.

CONCLUSION

The Defendant felt it necessary to bring these recent issues to the Court's attention to further illustrate the need for his placement on home confinement. The Defendant's family situation becomes more dire by the day. Again, the Defendant does not offer this information to mitigate the crimes he committed. Placement on home confinement

will give the Defendant and his family a chance to stabilize these issues without sacrificing the integrity of the imposed sentence by this Honorable Court.
