)

Cr. No. 21-cr-10270-MLW

ORDER

April 8, 2022

WOLF, D.J.

Near the end of the April 8, 2022 hearing, a Probation Officer informed the court, the defendant, and the Assistant United States Attorneys representing Probation, of the Discharge Summary attached hereto as Exhibit A. The Probation Officer reported that it had been emailed to the parties and the court after the January 20, 2022 hearing. Although similar information is in documents admitted as Exhibits at the April 1, 4, and 8 hearings, Exhibit A includes information that is relevant, although not necessarily material, to the pending petitions concerning defendant's pretrial release. If the document had been provided to the court sooner, it would have been admitted into evidence as an Exhibit as well.

In view of the foregoing, it is hereby ORDERED that the Assistant United States Attorneys shall consult Probation, and the parties shall, by 4:00 p.m. on April 11, 2022, state their respective positions concerning whether the document should be admitted as evidence and the reasons for their position. If Probation disagrees with the Assistant United States Attorneys'

position, or wishes to supplement it, it may make a separate submission to the court.

UNITED STATES DISTRICT JUDGE

Exhibit A

**Hope Center - Clinical Stabilization
Services Discharge Summary**

Session Information

Client:	Jittaphol, Aticha (260293) 1/15/1989
Staff:	Fenton, Colleen (007843)
Document Date:	1/3/2022
Client Program:	(Not Set)

N - "I do not need anything." A - "sports, business, organization." P - "be successful, take care of my family and return home." Upon completion they were assessed as follows: S - To focus on self. N - To stay away from people who are using. A - To reach out to a friend to get to a meeting. P - To remain abstinent.
Discharge Destination:	Home

Treatment Summary

Reason for Seeking Treatment:	Ms. Aticha Jittaphol was referred to Hope Center from Carlson Recovery Center with primary diagnoses of Amphetamine Use Disorder. She denies any secondary diagnoses or interest in obtaining MAT. She is currently on federal probation and denies any appointments. Ms. Jittaphol would like to return home however probation requires further treatment.
Interventions/Responses:	Include information on interventions/services provided and person's response to interventions. Ms. Jittaphol was subject to numerous groups including daily process groups and psycho-educational groups with such topics as Motivation, Relapse Prevention, Overdose Prevention, Recognition and Response, Anger Management, Spirituality, Nutrition, Stages Of Change and Coping Skills, compulsive behaviors, Living Sober, and Roadmaps,(treatment plan goals/ review). Ms. Jittaphol also participated in 1:1 one-hour counseling sessions, several times a week. Ms. Jittaphol attended AA/NA meetings that came into the facility. Ms. Jittaphol actively participated in all groups, inside the house as well as individual sessions. She responded well to all interventions and participated in all aspects of programming. Ms. Jittaphol responded well to all most of Treatment as indicated in the outcome listed below.
Outcomes:	Include qualitative and quantitative information regarding progress/gains achieved, strengths, abilities and preferences. Specify any standardized measures used. Based on the initial assessment, the central themes that will need to addressed in CSS level of care are: #1) potential for further relapse. #2) legal issues. #3) aftercare. The anticipated challenges Aticha will need to focus on while she is in CSS level of care are: #1) risk management, identify relapse triggers. #2) remain in continual contact with probation. #3) follow stipulations put forth by court (further treatment or obtain an IOP). Ms. Jittaphol made great strides in areas of developing coping skills, gaining insight as evidenced by increasing participation in groups and individual counseling sessions. Ms. Jittaphol also showed improved insight through homework assignments, listing high-risk events that could trigger relapse, long-term and short-term goals for recovery, employment, interpersonal relationships,
