The Small Business Administration

4. The United States Small Business Administration (“SBA”) was an executive-branch agency of the United States government that provided support to entrepreneurs and small businesses. The mission of the SBA was to maintain and strengthen the nation’s economy by enabling the establishment and viability of small businesses and by assisting in the economic recovery of communities after disasters.

5. As part of its efforts, the SBA provided business loans through banks, credit unions, and other lenders. Those loans had government backed guarantees.

The CARES Act

6. The Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) was a federal law enacted in or about March 2020. The CARES Act provided emergency financial assistance to the millions of Americans suffering the economic effects of the COVID-19 pandemic.

The Paycheck Protection Program

7. One source of relief provided by the CARES Act was the authorization of up to \$349 billion in forgivable loans to small businesses for job retention and certain other expenses, through a program referred to as the Paycheck Protection Program (“PPP”). In or around April 2020, Congress authorized over \$300 billion in additional PPP funding.

8. In order to obtain a PPP loan, a qualifying business was required to submit a PPP loan application, which was signed by an authorized representative of the business. The PPP loan application required the business (through its authorized representative) to acknowledge the program rules and make certain affirmative certifications in order to be eligible to obtain the PPP loan. In the PPP loan application, the small business (through its authorized representative) was required to state, among other things, its: (a) average monthly payroll expenses; and (b) number

of employees. These figures were used to calculate the amount of money the small business was eligible to receive under the PPP. In addition, businesses applying for a PPP loan were required to provide documentation showing their payroll expenses.

9. Among the types of businesses eligible for a PPP loan were individuals who operated under a “sole proprietorship” business structure. In order to be eligible to receive such a PPP loan, individuals had to report and document their income and expenses from the sole proprietorship, as typically reported to the IRS on Form 1040, Schedule C, for a given tax year. The lending institution or loan processor used this information to calculate the amount of money the individual was entitled to receive under the PPP. The maximum PPP loan amount for a sole proprietor with no employees was \$20,833.00.

10. A PPP loan application was required to be processed by a participating lender. If a PPP loan application was approved, the participating lender funded the PPP loan using its own monies, which were 100% guaranteed by the SBA. Data from the application, including information about the borrower, the total amount of the loan, and the listed number of employees, was transmitted by the lender to the SBA in the course of processing the loan.

11. PPP loan proceeds were required to be used by the business on certain permissible expenses—payroll costs, interest on mortgages, rent, and utilities. The PPP allowed the interest and principal on the PPP loan to be entirely forgiven if the business spent the loan proceeds on these expense items within a designated period of time after receiving the proceeds and used a certain amount of the PPP loan proceeds on payroll expenses.

12. “Prestamos CDFI” “Capital Plus Financial,” and “Benworth Capital” were among many designated financial institutions authorized to process PPP loans that were guaranteed by the SBA.

13. Blueacorn was created during the COVID-19 pandemic to assist small businesses in securing PPP loans.

14. Blueacorn would transmit PPP loan applications to approved lenders including Prestamos CDFI, Capital Plus Financial, and Benworth Capital.

15. Approved PPP loans were generally funded by wiring the proceeds of the loan into the applicant's bank account, Current account, or another designated financial institution.

B. THE CONSPIRACY:

Beginning at a time unknown, but not later than April 19, 2021, and continuing through at least on or about May 20, 2021, in the District of Maryland and elsewhere, the defendant, **SIEDAH ELEY**, Co-Conspirator 1, Co-Conspirator 2, Co-Conspirator 3, Co-Conspirator 4, Co-Conspirator 5, Co-Conspirator 6, Co-Conspirator 7, and others known and unknown to the United States, did willfully and knowingly combine, conspire, confederate, and agree together and with each other to execute, and attempt to execute, a scheme and artifice to defraud and to obtain money, funds, and property by means of false and fraudulent pretenses, representations and promises and did transmit and cause to be transmitted by means of wire communication in interstate commerce certain writings, signs, signals and sounds, in violation of Title 18, United States Code, Section 1343.

3. **ELEY** created false and fraudulent loan applications, each of which stated the applicant had a sole proprietorship in the beauty industry and generated substantial income from those businesses.
