NONCOMPLIANCE SUMMARY

On July 21, 2026, the offender's conditions of supervised release were reviewed by the probation officer and he signed said conditions acknowledging he understood his requirements.

The offender has not complied with the following condition(s) of supervision:

Violation Number	Nature of Noncompliance
1	**Special Condition #7**: You must abstain from the use of illegal controlled substances, and must submit to urinalysis testing, as directed by the supervising officer, but no more than 6 tests per month, in order to confirm continued abstinence from these substances. **Supporting Evidence**: The offender is alleged to have violated special condition number 7, by ingesting a controlled substance, cocaine, on or about July 21, 2026. On July 21, 2026, Mr. Crawford submitted a urine specimen at the U.S. Probation Office that was presumptive positive for cocaine. At that time, he signed a denial form indicating he did not use said substance. The urine specimen was thereafter sent to the national laboratory for further testing, and it was confirmed positive for cocaine.
2	**Standard Condition #4**: You must be truthful when responding to the questions asked by the probation officer. **Supporting Evidence**: The offender is alleged to have violated standard condition number 4, by being untruthful with the probation officer on or about July 21, 2026. As noted in alleged violation number 1, on July 21, 2026, the offender submitted a urine specimen at the U.S. Probation Office that was presumptive positive for cocaine. When questioned by the probation officer, he denied use of said substance and signed a denial form indicating such. The urine specimen was thereafter confirmed positive for cocaine. Given the above information, the offender was untruthful with the probation officer on July 21, 2026, when questioned about his drug use.

U.S. Probation Officer Action:

On July 21, 2026, the offender commenced his 5-year term of supervised release. Pursuant to his special conditions of supervision, he was referred to Pioneer Human Services (PHS) for a substance abuse evaluation. On that same date, he submitted a urine specimen that returned presumptive positive for cocaine. Mr. Crawford has been provided multiple opportunities to be honest with the probation officer about his drug use; however, he continues to deny use. His substance abuse assessment is scheduled for August 3, 2026.

Mr. Crawford resides in Mead, Washington, and he is actively seeking employment.

At this time, it is recommended that the Court take no action. This officer will continue to monitor the offender's urinalysis test results and will refer him for treatment services, if recommended.

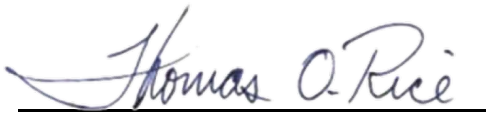

I declare under penalty of perjury that the foregoing is true and correct.
