Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

SB 6139 would extend legislative authorization of the Joint Center for Aerospace Technology Innovation (JCATI) by ten years, to July 1, 2030.

The Joint Center for Aerospace Technology Innovation (JCATI) was established in 2012 to support the aerospace industry in Washington state by:

- pursuing joint industry-university research in new technologies that are relevant to aerospace firms;
- providing aerospace industry-focused research opportunities for engineering and computer science students at the University of Washington, Washington State University, and Washington's other public four-year institutions of higher education, through assisting the development of internship programs and undergraduate and graduate student research opportunities that give students hands-on experience with aerospace firms; and
- in concert with aerospace firms and aerospace industry associations, identifying research needs and opportunities for technology transfer that benefit the State's aerospace industry.

The University of Washington receives approximately $3 million per biennium in funding for JCATI from the state's Economic Development Strategic Reserve Account. With extended authorization, JCATI will continue to operate at current levels unless state appropriation amounts change. Therefore, we have marked this fiscal note as "no impact."

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.
