Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

Section 1 states the intent of the legislation as it pertains to the exemption change due to the federal moratoriums that prevented the activity on which the exemptions are based.

Section 2 (2) amends RCW 61.24.166 changing the exemption from mediation to be based on 2019 activity as opposed to 2020.

Section 3 (5)(b) amends RCW 61.24.173 changing the exemption from the fee to be based on 2019 activity.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

Cash receipts impacts associated with this legislation is Indeterminate. The department assumes revenue would increase to match the foreclosure activity volume but due to continued efforts of new federal and state policies to address the effects of the pandemic, the amount is indeterminate.

Section 2 (2) changes exemption from mediation, this activity will require staff to update the exemption list. Increase in the number of referrals that are received due to preventing certain beneficiaries from claiming an exemption are likely to occur.

Section 3 (5)(b) changes the exemption from the fee to be based on 2019 activity. It is unknown what full effect this change will have but it is likely to increase revenue to the program. As a result of the federally imposed moratoriums on foreclosure during 2020, there was a significantly reduced activity level that would allow some unknown number of beneficiaries to claim an exemption from the fee that under normal circumstances would not have been able to do so. Changing the exemption to be based on 2019 data should prevent this and should result in increased revenue for calendar year 2021.

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

There is no impact to the department. Any increase in referrals associated with this legislation will be incorporated into the normal operating procedures with the Foreclosure Fairness Program.
