Representative Brown offered the following:

Amendment (with title amendment)

Remove lines 38-71 and insert:

health status, health outcomes, quality of health care, and access to health care services for racial and ethnic minority populations in this state.

(b) Develop mechanisms that support better information dissemination and education about health disparities which lead to improved access to and delivery of health care services to racial and ethnic minority populations in this state.

(c) Support minority health liaisons by facilitating access to and the exchange of information related to health promotion,

preventive health services, and education in the appropriate use of care.

(d) Develop and promote synergistic initiatives between programs, including, but not limited to, programs related to maternal and child health and human immunodeficiency virus and acquired immune deficiency syndrome, to mitigate health disparities for racial and ethnic minority populations in this state.

(e) Promote evaluations of demonstration projects and disseminate the evaluation findings to enhance the success and sustainability of policies, programs, and practices that increase health equity in this state.

(f) Promote the use of community health workers to improve the cultural competency of services and build individual and community self-sufficiency.

(g) Promote the development of programs that improve access to health care services for individuals with limited proficiency in the English language, including persons with disabilities.

(3) The department shall maintain all of the following on its

Committee/Subcommittee hearing bill: Professions & Public Health Subcommittee
Representative Rizo offered the following:

Amendment (with title amendment)

Remove lines 315-495 and insert:

(3) Controlled substances for acute pain shall not be administered or prescribed for more than 72 hours without consultation with a physician licensed under chapter 458 or chapter 459 who is skilled in diseases of the eye.

(3)~~(4)~~ A certified optometrist shall be issued a prescriber number by the board. Any prescription written by a certified optometrist for an ocular pharmaceutical agent pursuant to this section shall have the prescriber number printed thereon. A certified optometrist may not administer or prescribe any of the following:

(a) A controlled substance listed in Schedule II, Schedule III, Schedule IV, or Schedule V of s. 893.03, except for an oral analgesic ~~placed on the formulary pursuant to this section~~ for the relief of pain due to ocular conditions of the eye and its appendages.

(b) A controlled substance for the treatment of chronic nonmalignant pain as defined in s. 456.44(1)(f).

Section 5. Section 463.0056, Florida Statutes, is created to read:

463.0056 Ophthalmic Procedures.—

(1)(a) An optometrist certified in ophthalmic procedures may perform laser and non-laser ophthalmic procedures and therapies as authorized by the board but may not perform an ophthalmic procedure or therapy that requires drug-induced alteration of consciousness or that burns, cuts, or incises the globe of the eye. However, an optometrist certified in ophthalmic procedures may use medication for minimal tranquilization of the patient and local or topical anesthesia if the chances of complications requiring hospitalization of the patient as a result are remote.

(b) To be certified to perform ophthalmic procedures, a certified optometrist must first provide proof to the department of successful completion of a course and subsequent examination, approved by the board, on laser and non-laser ophthalmic procedures and therapy. The course and examination shall be

developed and offered jointly by a statewide professional association of physicians in this state accredited to provide educational activities designated for the American Medical Association Physician's Recognition Award Category 1 credit and a statewide professional association of licensed practitioners which provides board-approved continuing education on an annual basis. The board shall review and approve the content of the initial course and examination if the board determines that the course and examination adequately and reliably satisfy the criteria set forth in this section. The board shall thereafter annually review and approve the examination if the board determines that the content continues to adequately and reliably satisfy the criteria set forth in this section. Successful completion of the board-approved course and examination may be used by a certified optometrist to satisfy the continuing education requirements in s. 463.007(3) only for the biennial period in which the board-approved course and examination are taken. If a certified optometrist does not complete a board-approved course and examination under this section, the certified optometrist may not perform ophthalmic procedures described in paragraph (a).

(2) The following ophthalmic procedures are excluded from the scope of practice of optometry, except for the preoperative and postoperative care of these procedures:

(a) Any procedure that burns, cuts, or incises the globe of the eye.

(b) Laser vision correction, penetrating keratoplasty, and corneal or lamellar keratoplasty.

(c) Laser of the vitreous chamber or retina of the eye to treat any vitreomacular or retinal disease.

(d) Surgery of the eyelid for suspected eyelid malignancies or for incisional cosmetic or mechanical repair of blepharochalasis, ptosis, or tarsorrhaphy.

(e) Surgery of the boney orbit, including, but not limited to, orbital implants or removal of the human eye.

(f) Incisional or excisional surgery of the lacrimal system other than lacrimal probing or related procedures.

(g) Surgery requiring full thickness incision or excision of the cornea or sclera other than paracentesis in an emergency situation requiring immediate reduction of elevated pressure inside the eye.

(h) Surgery requiring incision or excision by scalpel of the iris and ciliary body, including, but not limited to, iris diathermy or cryotherapy.

(i) Surgery requiring incision or excision of the vitreous or retina.

(j) Surgery requiring incision or excision of the crystalline lens or an intraocular prosthetic implant.

(k) Surgery involving incision or excision of the extraocular muscles.

(l) Surgery requiring full thickness conjunctivoplasty with graft or flap.

(m) Pterygium surgery.

(n) Any other procedure or therapy the board deems appropriate.

Section 6. Subsection (3) of section 463.0057, Florida Statutes, is amended to read:

463.0057 Optometric faculty certificate.—

(3) The holder of a faculty certificate may engage in the practice of optometry as permitted by this section but may not administer or prescribe topical ocular pharmaceutical agents unless the certificateholder has satisfied the requirements of s. 463.006(1)(e) and (f). ~~If a certificateholder wishes to administer or prescribe oral ocular pharmaceutical agents, the certificateholder must also satisfy the requirements of s. 463.0055(1)(b).~~

Section 7. Section 463.006, Florida Statutes, is amended to read:

463.006 Licensure and certification by examination.—

(1) Any person desiring to be a certified optometrist ~~licensed practitioner~~ pursuant to this chapter must apply to the department and must submit proof to the department that she or he:

(a) Has completed the application forms as required by the board, remitted an application fee for certification not to exceed $250, remitted an examination fee for certification not to exceed $250, and remitted an examination fee for licensure not to exceed $325, all as set by the board.

(b) Is at least 18 years of age.

(c) Has graduated from an accredited school or college of optometry approved by rule of the board.

(d) Is of good moral character.

(e) Has successfully completed at least 110 hours of transcript-quality coursework and clinical training in general and ocular pharmacology as determined by the board, at an institution that:

1. Has facilities for both didactic and clinical instructions in pharmacology; and

2. Is accredited by a regional or professional accrediting organization that is recognized and approved by the Commission on Recognition of Postsecondary Accreditation or the United States Department of Education.

(f) Has completed at least 1 year of supervised experience in differential diagnosis of eye disease or disorders as part of the optometric training or in a clinical setting as part of the optometric experience.

(2) The board shall approve a licensure examination consisting of the appropriate subjects and including applicable

state laws and rules and general and ocular pharmacology with emphasis on the use and side effects of ocular pharmaceutical agents. The board may by rule substitute a national examination as part or all of the examination and, notwithstanding chapter 456, may by rule offer a practical examination in addition to a written examination. The board shall determine the required content, grading criteria, and passing score for the licensure examination.

(3) Each applicant who submits proof satisfactory to the board that he or she has met the requirements of subsection (1), who successfully passes the licensure examination within 3 years before the date of application or within 3 years after the submission of an application, and who otherwise meets the requirements of this chapter is entitled to be licensed as a certified optometrist ~~practitioner and to be certified to administer and prescribe ocular pharmaceutical agents in the diagnosis and treatment of ocular conditions~~.

Section 8. Subsection (12) is added to section 463.0135, Florida Statutes, to read:

463.0135 Standards of practice.—

(12) A licensed practitioner who is not a certified optometrist is required to display at her or his place of practice a sign that states, "I am a Licensed Practitioner, not a Certified Optometrist, and I am not able to prescribe ocular pharmaceutical agents or perform ophthalmic procedures."

Section 9. Subsection (4) of section 463.014, Florida Statutes, is amended to read:

463.014 Certain acts prohibited.—

(4) Surgery, except as otherwise provided in this chapter, is ~~of any kind is expressly~~ prohibited. Certified optometrists may remove superficial foreign bodies. For the purposes of this subsection, the term "superficial foreign bodies" means any foreign matter that is embedded in the conjunctiva or cornea but that has not penetrated the globe. Notwithstanding the definition of surgery as provided in s. 463.002~~(6)~~, a certified optometrist may provide ~~is not prohibited from providing~~ any optometric care within the practice of optometry as defined in s. 463.002~~(7)~~, including, but not limited to, ~~such as~~ removing an eyelash by epilation, probing an uninflamed tear duct in a patient 18 years of age or older, blocking the puncta by plug, or superficial scraping for the purpose of removing damaged epithelial tissue or superficial foreign bodies or taking a culture of the surface of the cornea or conjunctiva.

T I T L E A M E N D M E N T

Remove lines 48-56 and insert:
requiring licensed practitioners who are not certified optometrists to display in their practices a sign containing

specified information; amending s. 463.014, F.S.; revising a prohibition on

Committee/Subcommittee hearing bill: Professions & Public Health Subcommittee

Representative Caruso offered the following:

Amendment

Remove lines 62-235 and insert:

licensed under part III of chapter 401 as a basic life support service or an advanced life support service and which has no for-profit subsidiaries, uses volunteers to provide services, is not operating for pecuniary profit or financial gain, and does not distribute to or inure to the benefit of its directors, members, or officers any part of its assets or income.

Section 2. Paragraph (a) of subsection (5) of section 316.072, Florida Statutes, is amended to read:

316.072 Obedience to and effect of traffic laws.—

(5) AUTHORIZED EMERGENCY VEHICLES.—

(a)1. The driver of an authorized emergency vehicle, when responding to an emergency call, when in the pursuit of an actual or suspected violator of the law, or when responding to a fire alarm, but not upon returning from a fire;

2. A medical staff physician or technician of a medical facility licensed by the state or of a volunteer ambulance service when responding to an emergency in the line of duty in his or her privately owned vehicle, using red lights as authorized in s. 316.2398; or

3. The driver of an authorized law enforcement vehicle, when conducting a nonemergency escort, to warn the public of an approaching motorcade;

may exercise the privileges set forth in this section, but subject to the conditions herein stated.

Section 3. Subsection (3) of section 316.2397, Florida Statutes, is amended to read:

316.2397 Certain lights prohibited; exceptions.—

(3) Vehicles of the fire department and fire patrol, including vehicles of volunteer firefighters as permitted under s. 316.2398, may show or display red or red and white lights. Vehicles of medical staff physicians or technicians of medical facilities licensed by the state or of volunteer ambulance services as authorized under s. 316.2398, ambulances as authorized under this chapter, and buses and taxicabs as

authorized under s. 316.2399 may show or display red lights. Vehicles of the fire department, fire patrol, police vehicles, and such ambulances and emergency vehicles of municipal and county departments, volunteer ambulance services, public service corporations operated by private corporations, the Fish and Wildlife Conservation Commission, the Department of Environmental Protection, the Department of Transportation, the Department of Agriculture and Consumer Services, and the Department of Corrections as are designated or authorized by their respective department or the chief of police of an incorporated city or any sheriff of any county may operate emergency lights and sirens in an emergency. Wreckers, mosquito control fog and spray vehicles, and emergency vehicles of governmental departments or public service corporations may show or display amber lights when in actual operation or when a hazard exists provided they are not used going to and from the scene of operation or hazard without specific authorization of a law enforcement officer or law enforcement agency. Wreckers must use amber rotating or flashing lights while performing recoveries and loading on the roadside day or night, and may use such lights while towing a vehicle on wheel lifts, slings, or under reach if the operator of the wrecker deems such lights necessary. A flatbed, car carrier, or rollback may not use amber rotating or flashing lights when hauling a vehicle on the bed unless it creates a hazard to other motorists because of

protruding objects. Further, escort vehicles may show or display amber lights when in the actual process of escorting overdimensioned equipment, material, or buildings as authorized by law. Vehicles owned or leased by private security agencies may show or display green and amber lights, with either color being no greater than 50 percent of the lights displayed, while the security personnel are engaged in security duties on private or public property.

Section 4. Subsections (1), (2), and (4) of section 316.2398, Florida Statutes, are amended to read:

316.2398 Display or use of red or red and white warning signals; motor vehicles of volunteer firefighters or medical staff.—

(1) A privately owned vehicle belonging to an active firefighter member of a regularly organized volunteer firefighting company or association, while en route to the fire station for the purpose of proceeding to the scene of a fire or other emergency or while en route to the scene of a fire or other emergency in the line of duty as an active firefighter member of a regularly organized firefighting company or association, may display or use red or red and white warning signals. A privately owned vehicle belonging to a medical staff physician or technician of a medical facility licensed by the state or of a volunteer ambulance service, while responding to an emergency in the line of duty, may display or use red warning

signals. Warning signals must be visible from the front and from the rear of such vehicle, subject to the following restrictions and conditions:

(a) No more than two red or red and white warning signals may be displayed.

(b) No inscription of any kind may appear across the face of the lens of the red or red and white warning signal.

(c) In order for an active volunteer firefighter to display such red or red and white warning signals on his or her vehicle, the volunteer firefighter must first secure a written permit from the chief executive officers of the firefighting organization to use the red or red and white warning signals, and this permit must be carried by the volunteer firefighter at all times while the red or red and white warning signals are displayed.

(2) A person who is not an active firefighter member of a regularly organized volunteer firefighting company or association or a physician or technician of the medical staff of a medical facility licensed by the state or of a volunteer ambulance service may not display on any motor vehicle owned by him or her, at any time, any red or red and white warning signals as described in subsection (1).

(4) A physician or technician of the medical staff of a medical facility licensed by the state or of a volunteer ambulance service may not operate any red warning signals as

authorized in subsection (1), except when responding to an emergency in the line of duty.

Section 5. Section 401.211, Florida Statutes, is amended to read:

401.211 Legislative intent.—The Legislature recognizes that the systematic provision of emergency medical services saves lives and reduces disability associated with illness and injury. In addition, that system of care must be equally capable of assessing, treating, and transporting children, adults, and frail elderly persons. Further, it is the intent of the Legislature to encourage the development and maintenance of emergency medical services because such services are essential to the health and well-being of all citizens of the state. The Legislature finds that it is in the public interest to foster the development of emergency medical services that address religious sensitivities. In accordance with the Florida Volunteer and Community Service Act of 2001, the Legislature further recognizes the value of augmenting existing county and municipal emergency medical services with those provided by volunteer service organizations. The Legislature also recognizes that the establishment of a comprehensive statewide injury-prevention program supports state and community health systems by further enhancing the total delivery system of emergency medical services and reduces injuries for all persons. The purpose of this part is to protect and enhance the public

health, welfare, and safety through the establishment of an emergency medical services state plan, an advisory council, a comprehensive statewide injury-prevention program, minimum standards for emergency medical services personnel, vehicles, services and medical direction, and the establishment of a statewide inspection program created to monitor the quality of patient care delivered by each licensed service and appropriately certified personnel.

Section 6. Subsection (22) is added to section 401.23, Florida Statutes, to read:

401.23 Definitions.—As used in this part, the term:

(22) "Volunteer ambulance service" means a faith-based, not-for-profit corporation registered under chapter 617 which is licensed by the department as a basic life support service or an advanced life support service, is not a parent, subsidiary or affiliate of, or related to any for-profit entity, and which uses only unpaid volunteers to provide services, is not operating for pecuniary profit or financial gain, and does not distribute to or inure to the benefit of its directors, volunteers, members, or officers, any part of its assets or income.

Section 7. Paragraph (d) of subsection (2) and subsection (6) of section 401.25, Florida Statutes, are amended to read:

401.25 Licensure as a basic life support or an advanced life support service.—

(2) The department shall issue a license for operation to any applicant who complies with the following requirements:

(d) The applicant has obtained a certificate of public convenience and necessity from each county in which the applicant will operate. In issuing the certificate of public convenience and necessity, the governing body of each county shall consider the recommendations of municipalities within its jurisdiction. An applicant that is a first responder agency is exempt from this requirement if it is a faith-based, not-for-profit corporation registered under chapter 617 which has been operating in this state for at least 10 consecutive years, has no for-profit subsidiaries, uses volunteers to provide services, is not operating for pecuniary profit or financial gain, and does not distribute to or inure to the benefit of its directors, members, or officers any part of its assets or income.

(6)(a) The governing body of each county may adopt ordinances that provide reasonable standards for certificates of public convenience and necessity for basic or advanced life support services and air ambulance services. In developing standards for certificates of public convenience and necessity, the governing body of each county must consider state guidelines, recommendations of the local or regional trauma agency created under chapter 395, and the recommendations of municipalities within its jurisdiction.

Representative Plakon offered the following:

Amendment

Remove lines 34-72 and insert:

members:

(a) As appointed by the Governor:

1. A representative of the Department of Health.

2. A representative of the Agency for Health Care Administration.

3. A representative of the Office of Insurance Regulation.

4. A representative of the Department of Education.

5. One geneticist practicing in this state.

6. One registered nurse or advanced practice registered nurse who is licensed and practicing in this state with experience in treating rare diseases.

7. One hospital administrator from a hospital in this state which provides care to individuals diagnosed with rare diseases.

8. A pharmacist who is licensed and practicing in this state who has experience with drugs that are used in the treatment of rare diseases.

9. A representative of the biotechnology industry.

10. A representative of health insurance companies.

(b) As appointed by the President of the Senate:

1. A representative from an academic research institution in this state which receives grant funding for research regarding rare diseases.

2. A physician who is licensed under chapter 458 or chapter 459 and practicing in this state with experience in treating rare diseases.

3. An individual who is 18 years of age or older who has a rare disease.

4. An individual who is a caregiver of an individual with a rare disease.

5. A representative of an organization operating in this state which provides care or other support to individuals with rare diseases.

(c) As appointed by the Speaker of the House of Representatives:

1. A representative from an academic research institution in this state which receives grant funding for research regarding rare diseases.

2. A physician who is licensed under chapter 458 or chapter 459 and practicing in this state with experience in treating rare diseases.

3. An individual who is 18 years of age or older who has a rare disease.

4. An individual who is a caregiver of an individual with a rare disease.

5. A representative of organizations in this state which provide care or other support to individuals with rare diseases. Any vacancy on the advisory council must be filled in the same manner as the original appointment.

(3) The initial members of the advisory council must be appointed by September 1, 2021. Each member must be appointed to a 4-year term of office. However, in order to achieve staggered terms, each of the initial members appointed pursuant to paragraph (2)(a) must be appointed to a 2-year term. The

Representative Brown offered the following:

Amendment

Remove lines 111-191 and insert:

(h) "Perinatal professionals" means doulas, Healthy Start and home visiting programs, childbirth educators, community health workers, peer supporters, certified lactation consultants, nutritionists and dietitians, social workers, and other licensed and nonlicensed professionals who assist women through their prenatal or postpartum periods.

(i) "Postpartum" means the 1-year period beginning on the last day of a woman's pregnancy.

(j) "Severe maternal morbidity" means an unexpected outcome caused by a woman's labor and delivery which results in

significant short-term or long-term consequences to the woman's health.

(k) "Technology-enabled collaborative learning and capacity building model" means a distance health care education model that connects health care professionals, particularly specialists, with other health care professionals through simultaneous interactive videoconferencing for the purpose of facilitating case-based learning, disseminating best practices, and evaluating outcomes in the context of maternal health care.

(2) PURPOSE.—The purpose of the pilot programs is to:

(a) Expand the use of technology-enabled collaborative learning and capacity building models to improve maternal health outcomes for the following populations and demographics:

1. Ethnic and minority populations.

2. Health professional shortage areas.

3. Areas with significant racial and ethnic disparities in maternal health outcomes and high rates of adverse maternal health outcomes, including, but not limited to, maternal mortality and severe maternal morbidity.

4. Medically underserved populations.

5. Indigenous populations.

(b) Provide for the adoption of and use of telehealth services that allow for screening and treatment of common pregnancy-related complications, including, but not limited to, anxiety, depression, substance use disorder, hemorrhage,

infection, amniotic fluid embolism, thrombotic pulmonary or other embolism, hypertensive disorders relating to pregnancy, diabetes, cerebrovascular accidents, cardiomyopathy, and other cardiovascular conditions.

(3) TELEHEALTH SERVICES AND EDUCATION.—The pilot programs shall adopt the use of telehealth or coordinate with prenatal home visiting programs for services to provide all of the following services and education to eligible pregnant women up to the last day of their postpartum periods, as applicable:

(a) Referrals to Healthy Start's coordinated intake and referral program to offer families prenatal home visiting services.

(b) Services and education addressing social determinants of health, including, but not limited to, all of the following:

1. Housing placement options.

2. Transportation services or information on how to access such services.

3. Nutrition counseling.

4. Access to healthy foods.

5. Lactation support.

6. Lead abatement and other efforts to improve air and water quality.

7. Child care options.

8. Car seat installation and training.

9. Wellness and stress management programs.

10. Coordination across safety net and social support services and programs.

(c) Evidence-based health literacy and pregnancy, childbirth, and parenting education for women in the prenatal and postpartum periods.

(d) For women during their pregnancies through the postpartum periods, connection to support from doulas and other perinatal health workers.

(e) Tools for prenatal women to conduct key components of maternal wellness checks, including, but not limited to, all of the following:

1. A device to measure body weight, such as a scale.

2. A device to measure blood pressure which has a verbal reader to assist the pregnant woman in reading the device and to ensure that the health care practitioner performing the wellness check through telehealth is able to hear the reading.

3. A device to measure blood sugar levels with a verbal reader to assist the pregnant woman in reading the device and to ensure that the health care practitioner performing the wellness check through telehealth is able to hear the reading.

4. Any other device that the health care practitioner performing wellness checks through telehealth deems necessary.
