this HAS to happen HAS TO....and we can make sure Henry gives us PERCISE location and expected docking so we can tell the governor's team...make sure to add that to your email that we will coordinate with them AND YOU since you're the PR pro how to maximize this showing California is helping...You know Henry will push this one HARD....and maybe you discuss with henry to see if we can get him mentioned that he is a Chinese american helping his home state? im sure the governor will like that? Regardless, this HAS to happen and they will love us....

he needs to do a presser at the airport since it is air mailed

Mike let's think about a PR stunt with newsom receiving the mask at the Port or something. Maybe we can express ship the first batch?

Subject: Invoice inventory

Team,

I realized we need to do quite a bit of work tomorrow to get the wire through. Need to source inventory amounts to tell California what we'll be sending them. Gula has henrys latest numbers broken down by model for what Calif needs. I think we are still short but I have other sources. I need your guys help to figure out how to write the invoice with flexibility. Perhaps we just list the models and say 100m units in any mix of these models?

Also Jenni I need to buy insurance tomorrow asap. Can you investigate?

Once the wire is cleared let's contact mark the CFO and get him going. Also let's lock down our office space. I can't stand working remotely. Let's tell the CFO we need to meet his distro guys.

Ethan we should start talking to your shipping guy.

Mike let's think about a PR stunt with newsom receiving the mask at the Port or something. Maybe we can express ship the first batch?

Gula, let's think about timing with trump mask give. Thinking next week. Let's discuss in the am then have you work wh to make it happen.

Thanks all. Let's have a yuuge day tomorrow.

Thanks again,

John
