Looks like we are good

Mike Gula

Mar 25 5:21am

So help me with my math to make sure I'm right

We buy for \$2.82 times 30m = \$8.46 million to blue flame from Henry

If we sell for 25% mark up from \$2.82 we sell to CA for \$3.52. Margin is .7 x 30 million = \$21 million to blueflame from the CA transaction

MG

Mar 25 5:21am

Correct?

MG

Mar 25 5:21am

Sweet mother of god. And that's only on the first 30
