Importance: High

Hello all,

Attached picture of N95 matching part number requested from one of our factories. Confirming this is FDA and NIOSH certified.

1. We are splitting production 1.5M to 2M units per factory to expedite delivery so part numbers may be different but we will ensure match per PO
2. Cannot emphasize enough we need to pay factories today since we have issued draft POs or we start PO process from scratch. Every time we cancel and re-issue we risk losing credibility with factories

Excited to get this going.

Thanks,
Suuchi
