Dear Michael,

Pleasure texting with you. Here's our sales sheet for today. I have some inventory in california, some in Mexico and a huge global supply chain that can service any need you have going forward.

Hand sanitizer I just came into a bunch of inventory of hand sanitizer based here in Riverside, California that is 80% alcohol levels. Also we can make children's n95 masks now at about 9 mil units a month. This isn't on the sales sheet.

75,000 6oz units that we can private label.
1 mil bottles of 2oz hand sanitizer.

If you want I can have this moved to you tomorrow.

Please let me know what the next steps are.

Thanks again!

John
