Committee/Subcommittee hearing bill: Regulatory Reform Subcommittee

Representative Maggard offered the following:

Amendment (with title amendment)

Remove everything after the enacting clause and insert:

Section 1. Subsection (2) of section 553.79, Florida Statutes, is amended to read:

553.79 Permits; applications; issuance; inspections.—

(2)(a)

1. Except as provided in subsection (8), an enforcing agency may not issue any permit for construction, erection, alteration, modification, repair, or demolition of any building or structure until the local building code administrator or inspector has reviewed the plans and specifications required by the Florida Building Code, or local amendment thereto, for such

proposal and found the plans to be in compliance with the Florida Building Code. If the local building code administrator or inspector finds that the plans are not in compliance with the Florida Building Code, the local building code administrator or inspector shall identify the specific plan features that do not comply with the applicable codes, identify the specific code chapters and sections upon which the finding is based, and provide this information to the local enforcing agency. If such building code administrator or inspector requests review of such plans by any other person and such person identifies plan features that do not comply with the applicable codes, the building code administrator or inspector must provide this information to the local enforcing agency. The local enforcing agency shall provide this information to the permit applicant. ~~In addition,~~

2. An enforcing agency may not issue any permit for construction, erection, alteration, modification, repair, or demolition of any building until the appropriate firesafety inspector certified pursuant to s. 633.216 has reviewed the plans and specifications required by the Florida Building Code, or local amendment thereto, for such proposal and found that the plans comply with the Florida Fire Prevention Code and the Life Safety Code. Any building or structure which is not subject to a firesafety code shall not be required to have its plans reviewed by the firesafety inspector.

3. Any building or structure that is exempt from the local building permit process may not be required to have its plans reviewed by the local building code administrator. Industrial construction on sites where design, construction, and firesafety are supervised by appropriate design and inspection professionals and which contain adequate in-house fire departments and rescue squads is exempt, subject to local government option, from review of plans and inspections, providing owners certify that applicable codes and standards have been met and supply appropriate approved drawings to local building and firesafety inspectors.

4. The enforcing agency shall issue a permit to construct, erect, alter, modify, repair, or demolish any building or structure when the plans and specifications for such proposal comply with the Florida Building Code and the Florida Fire Prevention Code and the Life Safety Code as determined by the local authority in accordance with this chapter and chapter 633.

(b) After the local enforcing agency issues a permit, the local enforcing agency may not make or require any substantive change to the plans or specifications except those required for compliance with the Florida Building Code, or local amendment thereto, or the Florida Fire Prevention Code or the Life Safety Code. Whenever a local enforcement authority makes or requires a substantive change to the plans or specifications after a permit

is issued, the local enforcement agency must identify the specific plan or specifications that do not comply with the applicable codes, identify the specific code chapters and sections upon which the finding is based, and provide the information to the permitholder.

(c)1. A plans reviewer or inspector who fails to provide to the building code administrator with a reason or reasons for making or requiring substantive changes to plans or specifications is subject to disciplinary action against his or her license pursuant to s. 468.621(1)(i).

2. A building code administrator who fails to provide a permit applicant or permitholder with the reason or reasons for making or requiring substantive changes to plans or specifications is subject to disciplinary action against his or her license pursuant to s. 468.621(1)(i).

Section 2. Subsection (2) of section 633.208, Florida Statutes, is amended to read:

633.208 Minimum firesafety standards.—

(2)(a) Pursuant to subsection (1), each municipality, county, and special district with firesafety responsibilities shall enforce the Florida Fire Prevention Code as the minimum firesafety code required by this section.

(b) If a municipality, county, or special district determines that building plans for a building permit application do not comply with the Florida Fire Prevention Code or Life

Safety Code, or local amendment thereto, the local fire official must identify the specific plan features that do not comply with the applicable codes, identify the specific code chapters and sections upon which the determination is based, and provide this information to the permit applicant.

(c) After a municipality, county, or special district issues a building permit, it may not make or require any substantive change to the building plans except those required for compliance with the Florida Fire Prevention Code or Life Safety Code, or local amendment thereto. Whenever a municipality, county, or special district makes or requires substantive change to building plans after a permit is issued, the local fire official must identify the specific plan or specifications that do not comply with the Florida Fire Prevention Code or Life Safety Code, or local amendment thereto, identify the specific code chapters and sections upon which the finding is based, and provide this information to the permitholder.

(d) A local fire official, who is a certified firesafety inspector, who fails to comply with paragraphs (b) or (c) is subject to disciplinary action against his or her certificate pursuant to s. 633.216(6)(f).

Section 3. This act shall take effect July 1, 2022.

T I T L E A M E N D M E N T

Remove everything before the enacting clause and insert:
An act relating to building plan changes; amending s. 533.79, F.S.; requiring local building code administrators or inspectors to provide certain information to the local enforcing agency; requiring local enforcement agencies that require substantive changes to building plans to provide certain information to the permitholder; providing that a building code administrator, inspector, or plans reviewer is subject to disciplinary action in certain circumstances; amending s. 633.208, F.S.; requiring local fire officials to provide certain information to a permit applicant if building plans do not comply with the Florida Fire Prevention Code or Life Safety Code; requiring a local fire official to provide certain information to the permitholder if a municipality, county, or special district requires substantive changes to building plans to provide certain information to the permitholder; providing that a certified firesafety inspector is subject to disciplinary action in certain circumstances; providing an effective date.

Committee/Subcommittee hearing bill: Regulatory Reform Subcommittee

Representative Maggard offered the following:

Amendment to Amendment (603615) by Representative Maggard (with title amendment)

Between lines 81 and 82 of the amendment, insert:

Section 1. Subsection (25) is added to section 553.79, Florida Statutes, to read:

553.79 Permits; applications; issuance; inspections.—

(25)(a) A local law, ordinance, or regulation may not prohibit or otherwise restrict the ability of a private property owner to obtain a building permit to demolish any single-family residential structure located in a coastal high hazard area, moderate flood zone, or special flood hazard area according to Flood Insurance Rate Maps produced by the Federal Emergency

Management Agency in support of the National Flood Insurance Program if the lowest finished floor elevation of such structure is at or below base flood elevation as established by the Florida Building Code, as amended, or a higher base flood elevation as may be required by local ordinance, whichever is higher, provided that such permit otherwise complies with all applicable Florida Building Code and Florida Fire Prevention Code and Life Safety Code requirements, including applicable local amendments to such codes.

(b) An application for a demolition permit sought pursuant to this subsection may only be reviewed administratively for compliance with the Florida Building Code and the Florida Fire Prevention Code and Life Safety Code, including local amendments, and any regulations applicable to a similarly situated parcel; such applications may not be subject to any additional local land development regulations or a public hearing. A local government may not penalize an owner for a demolition that is in compliance with the demolition permit.

(c) In the event of a demolition, pursuant to a demolition permit, a local government may not impose additional regulatory or building requirements on the new single-family residential structure constructed on the site of the demolished structure that would not otherwise be applicable to a similarly situated, vacant parcel.

(d) This subsection does not apply to any:

1. Structure designated on the National Register of Historic Places.

2. Privately owned single-family residential structure designated historic by a local, state, or federal governmental agency on or before January 1, 2022.

3. Privately owned single-family residential structure designated historic by a local, state, or federal governmental agency designated historic with the consent of its owner after January 1, 2022.

T I T L E A M E N D M E N T

Remove lines 119-128 of the amendment and insert:
An act relating to building permits; amending s. 533.79, F.S.; requiring local building code administrators or inspectors to provide certain information to the local enforcing agency; requiring local enforcement agencies that require substantive changes to building plans to provide certain information to the permitholder; providing that a building code administrator, inspector, or plans reviewer is subject to disciplinary action in certain circumstances; prohibiting a local government from prohibiting or restricting certain permits; providing that local governments may only review certain

regulations for certain permits; providing exemptions;
amending s. 633.208, F.S.; requiring

Committee/Subcommittee hearing bill: Regulatory Reform Subcommittee

Representative Maggard offered the following:

Amendment (with title amendment)

Remove lines 50-80 and insert:

Section 2. Paragraph (b) of subsection (1) of section 553.793, Florida Statutes, is amended to read:

553.793 Streamlined low-voltage alarm system installation permitting.—

(1) As used in this section, the term:

(b) "Low-voltage alarm system project" means a project related to the installation, maintenance, inspection, replacement, or service of a new or existing alarm system, as defined in s. 489.505, including closed-circuit television systems used to signal or detect a burglary, fire, robbery, or

medical emergency, that is hardwired and operating at low voltage, as defined in the National Electrical Code Standard 70, Current Edition, or a new or existing low-voltage electric fence.~~, and~~ The term also includes ancillary components or equipment attached to ~~such~~ a low-voltage alarm system or low-voltage electric fence, including, but not limited to, home-automation equipment, thermostats, closed-circuit television systems, access controls, battery recharging devices, and video cameras.

Section 3. Section 553.7932, Florida Statutes, is created to read:

553.7932 Simplified permitting process for fire alarm system projects.—

(1) As used in this section, the term:

(a) "Contractor" means a person who is qualified to engage in the business of electrical or alarm system contracting pursuant to a certificate or registration issued by the department under part II of chapter 489.

(b) "Fire alarm system project" means a fire alarm system alteration of a total of 20 or fewer initiating devices and notification devices, or the installation or replacement of a fire communicator connected to an existing fire alarm control panel in an existing commercial, residential, apartment, cooperative, or condominium building.

(2)(a) A local enforcement agency may require a contractor, as a condition of obtaining a permit for a fire alarm system project, to submit a completed application and payment.

(b) A local enforcement agency may not require a contractor to submit plans or specifications as a condition of obtaining a permit for a fire alarm system project.

(3) A local enforcement agency may issue a permit for a fire alarm system project in person or electronically.

(4) A local enforcement agency must require at least one inspection of a fire alarm system project to ensure compliance with applicable codes and standards. If a fire alarm system project fails an inspection, the contractor must take corrective action as necessary to pass inspection.

(5) A contractor must keep a copy of the plans and specifications at a fire alarm system project worksite and make such plans and specifications available to the inspector at each inspection.

T I T L E A M E N D M E N T

Remove lines 12-17 and insert:
systems; creating s. 553.7932, F.S.; providing a definition for "contractor" and "fire alarm system project"; providing that a local enforcement agency

may not require plans or specifications for certain permits; providing that a local enforcement agency may issue certain permits in person or electronically; requiring local enforcement agencies to perform at least one inspection for certain projects; requiring a contractor to keep certain documents at a worksite for certain projects;
