> Trading 212: Warning! In the interest of mitigating risk for our clients, we have temporarily placed GameStop and AMC Entertainment in reduce-only mode as highly unusual volumes have led to an unprecedented market environment. New positions cannot be opened, existing ones can be reduced or closed. -<

Wtf? I signed an agreement acknowledging the risks of trading when I first signed up. They really think people will fall for the "mitigating risk for our clients", I guess they are mitigating the risk for their big hedge funds "clients". Little shits
