Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

1. The Attorney General's Office (AGO) Government Compliance & Enforcement Division (GCE) has reviewed this bill and determined it will not increase or decrease the division's workload. GCE provides legal advice and litigation support to the Department of Financial Institutions (DFI). SB 5280 requires virtual currency kiosk licensees to register with the Nationwide Licensing System, sets forth daily transaction limits for consumers, places limits on aggregate fees and charges, and provides for additional disclosure requirements. Although this bill creates additional requirements for virtual currency kiosk licensees, neither DFI nor GCE anticipates any new advice requests or increase in litigation if this bill is enacted. Therefore, no costs are included in this request.

2. The AGO Solicitor General's Office (SGO) has reviewed this bill and determined it will not increase or decrease the division's workload. Therefore, no costs are included in this request.

3. The AGO Consumer Protection Division (CPR) has reviewed this bill and determined it will not increase or decrease the division's workload. The enactment of this bill will not impact the provision of legal services as it only addresses licensed conduct and does not have a consumer protection enforcement mechanism included in the RCW or bill. Penalties for violations are administrative or criminal in nature. Therefore, no costs are included in this request.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The Department of Financial Institutions (DFI) currently licenses money service providers. This legislation limits the value of virtual currency kiosk transactions to $1,000 per day and modifies certain reporting requirements for licensees that operate virtual currency kiosks. This bill would not increase the number of licensees that are regulated by DFI, and the new reporting requirements in the bill will not warrant additional staffing. This legislation does not have fiscal impact for DFI.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Rulemaking may be required to update provisions related to receipt, disclosure, and reporting requirements. Rulemaking costs will be absorbed.
