Dear Michael,

Is this what you mean for specs? Please see attached.

Can you provide me with a rough estimate of much and by when you need it I can start shuffling around things on my end now to make sure we can get you what you need?

Thanks!

John

Also I just got word from my lead manufacturer that we need to place an order for 100mil n95 masks or they will sell them to the UK. I HIGHLY suggest we lock them in now. We can have you place a deposit on the 100mil mask order to make sure the inventory doesn't disappear and then do the usual 75% prepayment per lot that gets shipped over time.

Dear Michael,

Pleasure texting with you. Here's our sales sheet for today. I have some inventory in california, some in Mexico and a huge global supply chain that can service any need you have going forward.

Hand sanitizer I just came into a bunch of inventory of hand sanitizer based here in Riverside, California that is 80% alcohol levels. Also we can make children's n95 masks now at about 9 mil units a month. This isn't on the sales sheet.

75,000 6oz units that we can private label.

1 mil bottles of 2oz hand sanitizer.

If you want I can have this moved to you tomorrow.

Please let me know what the next steps are.

Thanks again!

John
