Hi Mike,

I understand your concern about the wire fees however Wires are expensive to process and carry the highest degree of risk to both clients and the bank. Our pricing is less than most other banks and, unfortunately, we are not able to reduce the costs below our stated rates.

However, a more cost efficient alternative to wires is to use ACH payments. The module subscription is $25 / month and then $0.15 per item.

If the payments do not have to be received the same day, this would be the best option to manage your banking service and processing costs.

Please let me know if you want us to work and send the wire agreement and the users for wires.

Kind Regards,
Maria

Will work on this Mike.

Heather also mentioned that you want wires capabilities.

We can add the wire module to your Treasury Management access. I will have to send you the paperwork . The Agreement and Wire Authorization Form via DocuSign.
The users are you and John Thomas. Do we need to add more users?

The module fee is $40.00 monthly and every wire sent online is $20 per domestic wire; $45 per international wire and $15 per incoming international wire.

Please let me know about the users so I can get the paperwork ready.

Kind Regards,

Maria Cole
