Loura Beam, date of birth [redacted], social security account number [redacted], was interviewed at her residence, [redacted] After being advised of the identity of the interviewing Agent and the nature of the interview, Beam provided the following information:

Beam was under the impression the man was not living there all the time but would just come by every now and then. Beam did not recall seeing a car parked in the driveway every evening.

Beam did not see any females who appeared to be living at the residence during the time either. She did see a black female arrive at the residence one time in a burgundy sedan type vehicle and back into the driveway. There were several packages on the front porch of the residence when the burgundy vehicle arrived, and the packages were gone from the front porch after the burgundy vehicle departed the residence. On another occasion, Beam saw a
