Motion / Letter for Early Termination of Probation

Case Number 2:18/CR/25

Dear Honorable Judge,

I am requesting early termination of probation in accordance with the Second Chance Act.

I have completed 13 months of my 3-year probation sentence. I am also serving concurrently a 3-year state probation (which was the same charge that went Federal). If I am granted early termination of my Federal probation I will still be on State probation until December 2023.

In my 13 months, I have resumed care for my 3 children as well as my granddaughter. I have rebuilt family relationships and restored community ties. I have reported every month. I have paid on my restitution every month as well without missing a payment. I have gone to every scheduled drug test and tested negative every time. I have not had any contact with law enforcement, nor have I had any violations.

I have been a caretaker for my mother who has been battling with medical issues for quite some time. In August 2020 she had surgery to remove cervical cancer followed by being diagnosed with Covid-19, then as of late a nodule was discovered on her lungs and she has also suffered with Pneumococcal Pneumonia. I recently began working for a nonprofit organization that helps women and children of domestic violence situations called Miracle Honesty Foundation. I hope to become more involved with the foundation once released from

probation as working with people is passion of mine. I am also registered to begin Aesthetician school in November. It is a 7-month program that I am excited to begin.

I am committed to making a better life for myself my children and my family. I am striving everyday to be a better person that I was yesterday. Holding myself accountable and continuing to learn and grow in all aspects of life.

I truly appreciated your time and consideration,

Leslie Bethea
