Emergency Capital Investment Program (ECIP) Payments Process Webinars

39 ECIP participants will be making their first interest and dividend payments to Treasury on September 16th. This includes all institutions that had closing dates between June 15, 2022 and September 14, 2022. For institutions in this category, attendance at one of these sessions is strongly encouraged.

During this webinar you will:

- Receive a refresher on how qualification for rate reduction is determined.
- Learn how to view the summary table in ECIP Portal (the salesforce-based reporting platform) containing the data used to calculate rate reduction qualification.
- Hear about key communications you will receive and your part in making timely, accurate payments.
- Receive notification of penalties for late reporting of QSRs and limitation.
- Have an opportunity to ask payment related questions.

Pre-registration is not required. These sessions will not be recorded but slides will be posted on the ECIP web page.
